(Accredited by NAAC with 'A' Grade)

Sumshodhini'20

At the outset team of the virtual workshop on “Roadmap for Startup” would like to express their thankfulness for all the technical and motivational support given for successful conduction in combined association with ISTE-KITSW Student Chapter and e-flip Magazine on 12th December 2020 under the aegis of Sumshodhini'20.

The total number of participants registered for this workshop are 709 among which 638 people have attended for the YouTube Live session. These participants are from National wide engineering students hailing from 60 plus professional institutions. Among these participants, around 40 students are from our institution.

At the end of the workshop the e-Certificate of Merit/ Participation has been issued to every delegate who had attended the Quiz and gained a score more than 50%.

We are happy to bring to your kind notice that the workshop is well appreciated by the many number of student participants with a rating of 4.4 on a scale of 5.0 (based on the reviews of 221 participants) who attended the session for 100% attendance.

- 01 Online Advertising
- 02 Personalized User Experience
- 03 AI-powered Chatbots
- 04 Predictive Analysis
- 05 Web Designing
- 06 Content Generation
- 07 Content Curation
- 08 Email Marketing Campaigns
- 09 Voice Search Optimization
- 10 e-commerce

Below the video, the title "Roadmap for Startup (Virtual Workshop)" is displayed, along with the channel name "e-flip Magazine" and 45 subscribers. The video has 638 viewers. The right sidebar shows a list of "Up next" videos, including "Flutter Developer - Start your journey | Mobile Developer...", "Basics of Stock Market For Beginners Lecture 1 By CA...", "Demystifying Competitive Programming and Placements...", "CRED curious: Nithin Kamath in conversation with Kunal Shah", and "Linux Administration Essential Program | Batch 1 | Day 8 |...". Sumshodhini'20

Sumshodhini is the annual, two-day science and technology festival of KITS(Warangal) organized by I.S.T.E & Technical club , an independent body of students who organize this event along with many other outreach programs around the year. The symposium is known for hosting a variety of events that include competitions, events, paper presentations as well as workshops organized by the elite student bodies from across eight branches of KITS.

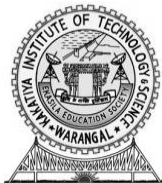

With a spectacular kick-start to KITSW's very first College Wide tech-fest back in 2004, Sumshodhini has been creating a spectacle of unparalleled enthusiasm in scientific thinking and innovation. Presently rolling out its 16th edition, its motto envisages the evolution of present day techniques and reaching the zenith of technical prowess.

Sumshodhini also receives extensive coverage in print, television as well as online media. It previously, has had features in Hans India, HMTV, and Tv9 etc. An ensemble of versatile events and competitions serve as the backbone of Sumshodhini by fulfilling its motto of spreading Science and Technology. Young enthusiasts from all over the city converge at this magnificent platform to prove their mettle while having fun.

Due to the Covid Pandemic outbreak we were unable to conduct the technical fest offline this year, but with the same enthusiasm and determination we have conducted Sumshodhini'20 in Virtual Mode with a theme Virtualis - a fest like never before.

The Indian Society for Technical Education (ISTE) is a national, professional, non-profit making organization in our country which cooperates with central and state governments industry and approved institutions, professional bodies, AICTE, MHRD, DST and Individuals in the cause of technical education and research. The main objective of ISTE is to assist and contribute in the production and development of top quality professional engineers and technicians needed by the industry and other organizations.

ISTE KITS Chapter was started in 1996. Most of the students are the members of the ISTE KITS Student Chapter and more than 150 faculty members have the life membership in the faculty chapter. The college is also an institutional member in ISTE.

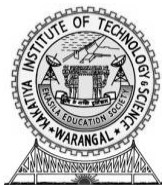

Sumshodhini'20

ISTE KITS Student Chapter has the track record of successfully conducting periodically the national level technical symposium called "SUMSHODHINI" since 2003. Apart from several workshops, guest lectures and other events were conducted under this chapter. This chapter has been declared as best ISTE student chapter of 2017 in Telangana State.

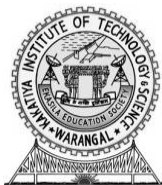

SUMSHODHINI'20 is a national level technical symposium organized by ISTE KITS Student Chapter & TC in coordination with all the departments. This technical fest is mainly intended to provide a common national platform for all engineering and management students in the country to share & experience their technical skills and knowledge. Besides the branch specific workshops, the following events are organized:

- Paper & Poster Presentations
- Group Discussions
- Draw & Delineate, Replica,
- E – Treasure Hunt, Numeral Dialectics
- Ideathon, Tech Mela, JAM, Techwiz
- Capture the Flag, Techuthsav '2, Placement Heat,
- Technophilia, Electrical Expo, Mr. – Ms.
- ELECTRON, TECH – SET – WIN, The Young
- Achiever, Ad-Mad, Business Monarch,
- HR-Troubleshooter, Tech Mania, Code Jam, Tech Connect, Web Designing
- 2.0, Tech Tycoons, Game of "C", Bizarre, Tech Tasks ,

NATIONAL TECH FEST BEGINS IN WARANGAL

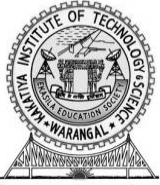

DC CORRESPONDENT
WARANGAL, DEC. 11

The Indian Society for Technical Education (ISTE) KITSW student chapter & Technical Club, Student Activity Center (SAC), Kakatiya Institute of Technology & Science, Warangal (KITSW) jointly organised a national-level students technical symposium sumshodhini'20 on Friday.

Mulugu and Jayashankar Bhupalpally district collector S. Krishna Aditya inaugurated the event and asked the students to implant their skill set from the beginning of their B.Tech course and not in the final stages.

This year's sumshodhini'20 is themed 'Virtualis', a fest like never before.

According to KITSW Principal Prof. K. Ashoka Reddy 1,278 students registered for workshops on Day-1 and 1,228 participants for events on Day-2. "This symposium makes equitable balance for both academics and extracurricular activities. Our institution is trying hard to bridge the gap between academics and industry needs," he said.

CIVIL ENGINEERING DEPARTMENT

Due to the Covid Pandemic outbreak we were unable to conduct the technical fest offline this year, but with the same enthusiasm and determination we have conducted Sumshodhini'20 in Virtual Mode with a theme Virtualis - a fest like never before.

Civil engineering department, as a part of its longstanding tradition has been organizing several interactive events throughout the year which impart knowledge to the students and with that ever-increasing spirit and unique motto the department has conducted technical events year this too for SUMSHODHINI'20, a National level technical symposium organized by Indian Society for Technical Education, KITS - Warangal chapter on 11th and 12th of this December.

All the events have been conducted on these two days facilitating the convenience of both participants and the organizers.

All the details of events conducted, organization and the response from the participant community are described day wise below.

The poster is for the Civil Engineering Department's Sumshodhini'20 event, held on 11-12 December 2020. It features a teal background with a city skyline and a construction crane. The central focus is a 'WORKSHOP ON ORACLE PRIMAVERA' with a fee of RS.200/-. Surrounding this are five other events: 'Replica' (RS.50/-), 'Numerical Dialectics' (RS.50/-), 'PPT' (RS.50/-), 'e-Treasure Hunt' (RS.50/-), and 'Draw & Delineate' (RS.50/-). The poster lists the Head of the Department (Dr. M. Veera Reddy), Faculty Coordinators (K. Srujan Varma and B. Srikanth), and Student Coordinators (P. Sahith Reddy and A.M. Sree Tej). Contact information for the department is provided at the bottom, including an email address and social media handles.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

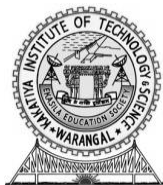

As per the culture of Kakatiya Institute of Technology and Science, every academic year KITSW Student Activity Centre (SAC) and ISTE Student Chapter organizes SUMSHODHINI, a National level Student Technical symposium for the aspirants assembling from various engineering colleges with a very high competitive spirit to participate and with the strong determination to include their achievements & accomplishments to their resumes. It also enables the students to develop leadership and organizing skills. This fest is organized every year with the objective to provide platform for the students to showcase their talent with a competitive spirit. This year SUMSHODHINI'20 was organized from 11th-12th December 2020

As part of SUMSHODHINI'20, department of CSE executed with a total of 6 events planned and organized at its best of quality. Fest coordinators decided to focus on the types of events to be included in the fest, taking into account the interest and requirements of the engineering student. Students participated actively in all events and present their work. The events like PPT PRESENTATION, LOGIX, TECH-FUN, TECHTASKS, BIZARRE and LOGIC TRACKER were planned, executed and have managed to gather maximum response. A one-day workshop on "BLOCKCHAIN" have been conducted for welfare of the students. A total of 108 students have participated in the workshop.

The following were the list of technical events organized:

1. Workshop: "BLOCKCHAIN"
2. PPT Presentation
3. Logix
4. Tech-fun
5. Techtasks
6. Bizarre
7. Logic tracker

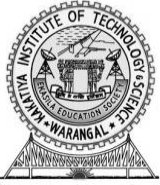

The winners were encouraged with a cash prizes and merit certificates for all the events. Every participant will be given participant certificate. Department feels proud to organize such a successful event and would like to convey thanks to Head of the Department, Principal and management for their timely advice and cooperation for organizing successful Fest. Not to forget final year and pre-final year students of CSE Department also deserve thanks for contributed their complete effort and participants for making "SUMSHODHINI'20" a grand success.

The program was all about introducing the blockchain to the Registered students. The primary focus is to make student understand the blockchain architecture and working of bitcoin. The Workshop became the first step for kickstarting in Blockchain field at the end of the day The participants are given inputs for using blockchain with different streams. Mr. Karthikey Kashyap from MSR-COSMOS was the trainer for the program. Students were given practical exposure on how the blockchain works internally as a part of the one day workshop.

Contents covered:

1. Introduction to Blockchain
2. Blockchain architecture
3. Blockchain tools
4. Working of

This workshop is strictly “FOR THE STUDENTS, BY THE STUDENTS!”. It is conducted by the final year students of the EEE department of KITSW as part of S’20

EV; Electric Vehicle is the most happening near future technology transformation in developing countries like India, and as the exigence for the graduating engineers to crack the Tech. though there were many workshops, Internships & FDP's conducted reg. this emerging Tech. in and around the country. There has been no such promising venue, where the participants Excel in both Theoretical (Design) & Practical (Fabrication) aspects with consumption of minimal resources [Time & Money].

So, focusing on the graduating engineer’s valuable resources [Time & Money] & the knowledge they should acquire on this emerging Tech., this workshop on Electric

Sumshodhini'20

Vehicle is organised for SUMSHODHINI-20 from the Dept. of EEE, entitled “**Design of Electric Vehicle**”. Where the participants were taught:

- **Basics of Electric Vehicle**
- **Vehicle Dynamics**
- **Suspension System**
- **Chassis**
- **Battery & BMS**
- **EV Charging**
- **Steering & Braking System**
- **Motor & Controller**

Participants will be able to design the components of an EV (Motor, Moor Controller, Chassis, Battery, Suspension System,) according to the requirement, & also able to Fabricate the designed Electric Vehicle at the end of this Workshop.

Hence, the workshop brings out actual engineering spirit of Designing & Fabrication along with the acquisition of detailed knowledge on the most happening near future Tech. in blended mode.

PHOTOGRAPHS DURING THE EVENT

EV Battery (rechargeable electric batteries)

- Is a storage of Energy (electric) for an Electric Vehicles
- Replaces a petrol-tank in a ICE vehicle
- Storage of fuel (petrol) used to drive a vehicle, even taking into account four-times higher drive efficiency of EV w.r.t ICE engine, Battery
- weight 10-12 times higher than filled petrol-tank per km of drive
- size 5 to 6 times higher than petrol tank required per km of drive
- costs is much-much higher than an empty petrol tank
- But cost of petrol per km much higher than electricity costs per km
- Battery has much higher CAPEX, but EV has much lower OPEX

- Consider a battery with a capacity of C to start with
- Over time the capacity decreases due to:
 - Aging or time: Calendar life (typically 1% to 2% of capacity loss per year)
 - Charge-discharge cycles: as batteries are charged / discharged, battery capacity decreases

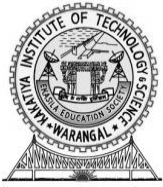

Factors Effecting Battery Life

With an electrolyte A Separator which acts as insulator (electrically isolates the electrodes) but allows the movement of ions

- Charging: Electrons (in electrolyte) move through Separator inside the battery towards cathode -- creates voltage potential between cathode and anode
- Discharge: Current from positive cathode through external electric circuit (load) to negative anode

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

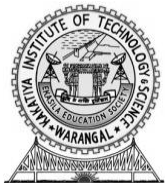

About the Department:

The Department of Electronics and Communication Engineering was started in the year 2000. The department is running one UG Programme in B.Tech (ECE) and one PG Programme with specialization in Digital Communication. The B.Tech Programme was started in the year 2000 with an intake of 40 students, subsequently the intake was increased to 60 in the year 2001 and to 90 in the year 2009 and in year 2011 the intake got enhanced to 120 and presently the intake is 180. The post graduate programme in M.Tech (Digital Communications) has an intake 25. The Department has state of the art laboratories such as Analog & Digital Simulation Lab, Microprocessor & Microcontroller Lab, Pulse Digital Circuits Lab, Analog Communication Lab, Digital Communication Lab, Microwave & Optical Communication Lab, Signal Processing Lab, Digital Electronics lab and are regularly upgraded to meet the current changes in Electronics and Communications. The Department hosts a very good library which is accessible to both students and staff. The syllabi of the courses are periodically updated taking into fold the rapid changes in the field of Electronics & Communications.

The Department has dedicated and dynamic faculty members. The department has 9 doctorates and remaining all with PG degrees from reputed institutes. They continuously strive to maintain the academic standards of the institute.

The faculty has a zeal for research and it is reflected by their publications in various National and International Journals. Faculty have attended in as many as international conferences and presented their work . They have also published their work in 37 referred journals. Most of the referred journals are SCI indexed. The department also boasts of filing patents under intellectual property office of India.

Department has been funded with Rs.41.36 lakhs by SERB-DST for the project entitled "Design and development of Printed Microstrip antennas for LTE and GPS Applications" under the guidance of Dr.M.Chandrasekhar. As a part of it a well-equipped laboratory has been established to carry out his research work on antenna development. Sunil Raja Manchili has been recruited as a junior research fellow to support research work for a period of three years.

The Department of ECE encourages the students to actively participate in the co-curricular and extra-curricular activities to enable the all-round development of the students. ECE Association is very active in organizing various technical events to enhance the students learning outside the classroom as well. Department association actively conducts guest lectures by prominent persons and make the students interact with the experts. As part of it Dr.B.K.NagaSrinivas Rao, Assistant Professor, Dept, of ECE,NIT Warangal has delivered a lecture on “Embedded System Design through Advanced Microcontrollers” for the students of third and final year students.

Many of the students of the department get placed on campus every year in reputed Industries like GE, TCS, Mphasis, AD3i, ZenQ, Hexaware, ValueLabs, Value Momentum, Edupolis, Ninjacart etc. In-addition the students fare very well in other competitive exams like TOEFL, GRE, GATE etc and are pursuing their higher studies at premier institutes in India and abroad. Department is continuously striving to increase the placements and to make the students ready to face the competitive world with their technical knowledge.

To keep the students abreast with the latest technology students are guided to visit various industries. As part of this norm the students have visited many industries like HAL, DRDO, RCI, BHEL etc every year. The students are also encouraged to pursue internships at various industries.

About the Symposium:

As per the culture of Kakatiya Institute of Technology and Science, every academic year KITSW Student Activity Centre (SAC) and ISTE Student Chapter organizes SUMSHODHINI, a National level Student Technical symposium for the aspirants assembling from various engineering colleges with a very high competitive spirit to participate and with the strong determination to include their achievements & accomplishments to their resumes. It also enables the students to develop leadership and organizing skills. This fest is organized every year with the objective to provide platform for the students to showcase their talent with a competitive spirit. This year SUMSHODHINI'20 was organized from 11th-12th December 2020. The event was successful enough to attract as many as 539 registrations. As part of SUMSHODHINI'20, department of ECE executed with a total of 9 events planned and organized at its best of quality.

Sumshodhini'20

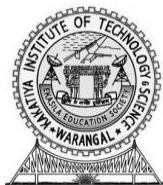

Focusing on the types of events to include in the fest was decided by fest coordinators keeping the interest and need of the engineering student into consideration. Students are actively participated in all the events and presented their work. The events like Paper Presentation, Bit2Byte, Cluster Emphasize, TechBuzz, Tech Hunt, Technodium, Project Expo, Poster Presentation and Frequency Prom were planned, executed and have managed to gather maximum response. A one-day workshop on “Applications of IOT and ML for Smart Cities” for 2nd year students and “Circuit Digest” for 1st year students have been conducted for welfare of the students. A total of 210 students have participated in both the workshops.

A worth witnessing response is observed for the workshops Applications of IOT and ML for Smart Cities and Circuit Digest.

The following were the list of technical events organized:

- 1) Workshop (for 2nd year students): “Applications of IOT & ML for Smart Cities”
- 2) Workshop (for 1st year students): “Circuit Digest ”
- 3) Paper Presentations
- 4) Poster Presentations
- 5) Technodium
- 6) Frequency Prom
- 7) Tech Hunt
- 8) TechBuzz
- 9) Cluster Emphasize
- 10) Bit2Byte
- 11) Project Expo

The winners were encouraged with a cash prizes for all the events. Department feels proud to organize such a successful event and would like to convey thanks to Head of the Department, Principal and management for their timely advice and cooperation for organizing successful Fest. Not to forget final year and pre-final year students of ECE Department also deserve thanks for contributed their complete effort and participants for making “SUMSHODHINI'20” a grand success.

DEPARTMENT OF ELECTRONICS AND INSTRUMENTATION ENGINEERING

ABOUT THE HOST DEPARTMENT:

The Department of Electronics and Instrumentation Engineering was established in the year 1981, with an intake of 30 students and subsequently it increased to 60. The Department has strength of 14 faculty members, all the faculty members hold PG Degree, out of which 4 faculty members are doctorate's ,10 faculty members are pursuing Ph.D.

The students fared well in national level competitive exams like GRE, CAT, GATE, TOFEL etc., and most of them are pursuing their higher studies in premier and prestigious institutions like IITs, NITs, IIMs and many reputed Universities abroad.

The students of the department conduct various programs in the students Association, "Electronics and Instrumentation Engineering Association" every week, which is scheduled as a part of academic program. This includes activities like Group discussions, JKC activities, Mock interviews, and many other activities which help students to excel in their soft skills and organizing capabilities.

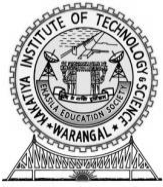

TECHNICAL EVENTS:

1. WORKSHOP: IoT Make-a-thon
2. Techusthav
3. Placement Heat
4. Technopila
5. Capture the flag
6. PAPER PRESENTATIONS

Workshop: IoT Makeathon

Kits Warangal has organised SUMSHODINI2020 an yearly technical symposium, virtually this year with proper covid precautionary measures. As part of it, Department of Electronics and Instrumentation Engineering (EIE) has organised a workshop on IoT with a title IoT makeaThon. Make-a-thon is a fun activity to bring out like-minded people and build creative thoughts. Trainee for the workshop has an experience of doing multiple projects on IoT.

This workshop deals with a system of interrelated, internet-connected objects that are able to collect and transfer data over a wireless network without human intervention. This workshop will also help clear concepts on IoT and Arduino. It also focuses on developing a system based on Iot using Arduino. Being conducted virtually, we used online simulators like tinkercad.

Tinkercad is free, easy to use app for 3D design, electronics and coding. It's used by teachers, kids and hobbies to imagine, design and make anything. Tinkercad is a free collection of online software tools that help people all over the world.

One day workshop on IoT make-a-Thon. [11th December 2020]

The poster is for a 1-day workshop on IoT Makeathon. It features a dark blue background with a futuristic cityscape of glowing buildings and a rocket launching. The text is in white and yellow. At the top, it says 'SUMSHODHINI 2019' and 'KAKATIYA INSTITUTE OF TECHNOLOGY & SCIENCE:WARANGAL'. Below that, it says 'DEPARTMENT OF ELECTRONICS & INSTRUMENTATION ENGINEERING PRESENTS'. The main title is '1 DAY WORKSHOP ON IoT MAKEATHON'. The date is 'Date: 11th December 2020'. Underneath, it lists 'WORKSHOP ORGANISERS : Vishnu Manchikatla 86398 17230 and Ch. Naga Shivapriya 89198 93470'. It also lists 'HEAD OF THE DEPARTMENT : Dr. K. Venu Madhav Head, EIE Dept.'. At the bottom right, it says 'Registration Fee : Rs. 200 only'. On the left, it lists 'FACULTY CO-ORDINATORS : Smt. K. Shalaja Assistant Professor 94921 14016 and Sri. G. Raju Assistant Professor 99124 28446'.

What will you learn after attending this workshop?

- ✓ Interfacing through IoT.
- ✓ Basics on Arduino.
- ✓ Interfacing an Arduino.
- ✓ Develop an IoT based system.
- ✓ Use of Arduino and IoT in various technical applications.
- ✓ Making various projects based on IoT.
- ✓ Applications of IoT in medical, home and industrial field.
- ✓ Projects like developing a Turbo motor, Namaste Robot and many more.
- ✓ Using online simulators like Tinker cad

Sumshodhini'20

Applications of online simulator.

- ❖ Make 3D designs like Buildings, Cup, bottle range etc.
- ❖ Design home automation projects
- ❖ Perform code operations using code blocks.
- ❖ Provides a platform in world's largest creative network for showcasing and discovering creative work.

Workshop benefits

- Learn and interact with trainer and get to know about Arduino, IoT and their interfacing.
- Receive an unparalleled education on the art of building creative ideas and applications.
- Learn to use online simulators and design projects.

Highlights

Resource person of SUMSHODINI2020 Mr. Madhu Parvathaneni, impressed by the enthusiasm in our students, decided to send hardware kits to two of our second-year students to encourage them and guide them in their interests.

Mr. Madhu has also offered two of our 3rd year students with an internship.

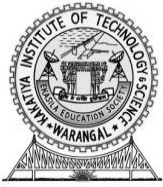

Contents

Session one [10:30 AM to 1:00 PM]

1. Introduction to IoT.
2. Introduction to Arduino
3. Applications of IoT an Arduino
4. IoT interfacing
5. Pin description of Arduino, usage of Arduino in projects.
6. Basics of Tinker cad

Session two [2:00 PM to 5:30 PM]

1. Developing code on tinker cad
2. Building code using code blocks
3. Designing a Turbo motor
4. Designing a namaste robot

Workshop : Machine Learning using python

On December 11th, 2020, the department of Information Technology organized one day workshop on "Machine Learning using python" as part of SUMSHODHINI-20 a national level technical event organized by ISTE student's chapter and KITSW. Workshop organized virtually, New Seminar Hall, total 72 students from various colleges had registered for this workshop.

The resource person for this workshop was Sahith Reddy, from Codegnan IT solutions.

The inaugural session for the guest lecture was very simple and short. The 4th year student K.Kavya Sri invited Dr. P.Kamakshi (Head, Dept of IT), Sahith Reddy resource person for this workshop, M.Kishore faculty coordinators and Student co-ordinator Sai Srikar Puppala.

Dr P.Kamakshi, Head department of IT welcome the students and said few words about the importance of such workshops and how these workshops will help the students in campus placements and job interviews.

Sumshodhini'20

M.Kishore, faculty coordinator welcome the students and said thanks to management, director, principal, Head of the department, faculty, staff and students for their cooperation and help to conduct this workshop. He gave brief description of the contents to be delivered by the resource person. Chief Guest and resource person of this work shop Sahith Reddy Said few words about importance of workshop and he requested the participant to utilize this opportunity.

Finally Student coordinator Sai Srikar thanked all the participants who came from various colleges and his friends for their cooperation to conduct such workshops.

Student K.KavyaSri given brief profile of resource person Amit Roy and handed over the session to him.

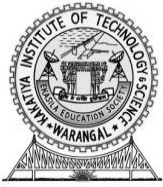

The following are the points discussed by Amit Roy

Machine Learning using Python".

Machine learning is the science of getting computers to act without being explicitly programmed. In the past decade, machine learning has given us self-driving cars, practical speech recognition, effective web search, and a vastly improved understanding of the human genome.

Workshop highlights:

- Fundamentals of ML
- Introduction to Python
- Implementation of Python in ML
- Types of ML
- Data Processing
- Algorithms for data analysis

DEPARTMENT OF MECHANICAL ENGINEERING

Sumshodhini is the annual, two-day science and technology festival of KITS(Warangal) organized by I.S.T.E, an independent body of students who organize this event along with many other outreach programs around the year.

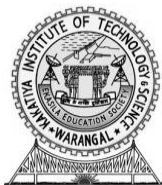

The symposium is known for hosting a variety of events that include competitions, events, paper presentations as well as workshops organized by the elite student bodies from across eight branches of KITS.

With a spectacular kick-start to KITSW 's very first College-Wide tech-fest back in 2004, Sumshodhini has been creating a spectacle of unparalleled enthusiasm in scientific thinking and innovation. Presently rolling out its 16th edition, its motto envisages the evolution of present-day techniques and reaching the zenith of technical prowess.

Sumshodhini also receives extensive coverage in print, television as well as online media. It previously has had features in Hans India, HMTV, Tv9, etc.

An ensemble of versatile events and competitions serve as the backbone of Sumshodhini by fulfilling its motto of spreading Science and Technology. Young enthusiasts from all over the city converge at this magnificent platform to prove their mettle while having fun.

On the behalf of Sumshodhini '20, the Mechanical engineering department had conducted several technical events organized by the Mechanical Engineering Students Association (MESA).

Introduction

Many pandemics gripped the world in the past and human race passed through a number of such wild events with lots of sufferings and innumerable causalities. But the survivors were left with severe damages and horrible experiences.

the world is immersed in a new pandemic named as Covid 19, the Corona Virus Disease 2019. This highly infectious disease is caused by a mutated Corona virus which causes damage to lungs and creates respiratory problems with uncontrollable acceleration in the human body and resilient with high temperatures also. Generally any virus does not survive beyond 20-25 degree centigrade, but this can.
