IMPLEMENT

Sumshodhini is the annual, three-day science and technology festival of KITS (Warangal) organized by ISTE Student Chapter & Technical club - ISTE being an independent student chapter and Technical Club KITSW under Student Activity Centre (SAC) who organize this event along with many other outreach programs around the year. The symposium is known for hosting a variety of events that include competitions, events, paper presentations as well as workshops organized by the elite student bodies from across eight branches of KITS.

ISTE Student Chapter KITSW **Technical Club KITSW - SAC**

With a spectacular kick-start to KITSW's very first College Wide tech-fest back in 2004, Sumshodhini has been creating a spectacle of unparalleled enthusiasm in scientific thinking and innovation. Presently rolling out its 18th edition, its motto envisages the evolution of present-day techniques and reaching the zenith of technicalprowess.

Sumshodhini also receives extensive coverage in print, television as well as online media. It previously, has had features in Hans India, HMTV, and Tv9 etc. An ensemble of versatile events and competitions serve as the backbone of Sumshodini by fulfilling its motto of spreading Science and Technology. Young enthusiasts from all over the city converge at this magnificent platform to prove their mettle while having fun.

After a long time, we were able to conduct the technical fest offline this year, with **IDEATE INNOVATE IMPLEMENT** as its theme.

The Indian Society for Technical Education (ISTE) is a national, professional, non-profit making organization in our country which cooperates with central and state, governments industry and approved institutions, professional bodies, AICTE, MHRD, DST and Individuals in the cause of technical education and research. The main objective of ISTE is to assist and contribute in the production and development of top-quality professional engineers and technicians needed by the industry and other organizations.

ISTE Telangana Section has been formed from erstwhile united Andhra Pradesh Section, post bifurcation of the state. The aim of the section is to work in line with the national policy in providing value addition to students and faculty of technical institutions.

ISTE KITS Chapter was started in 1996. Most of the students are the members of the ISTE KITS Student Chapter and more than 150 faculty members have the life membership in the faculty chapter. The college is also an institutional member in ISTE.

ISTE KITS Student Chapter has the track record of successfully conducting periodically the national level technical symposium called "SUMSHODHINI" since 2003. Apart from several workshops, guest lectures and other events were conducted under this chapter. This chapter has been declared as best ISTE student chapter of 2017 in Telangana State.

SUMSHODHINI'22 is a national level technical symposium organized by ISTE KITS Student Chapter & Technical Club KITSW in coordination with all the departments. This technical fest is mainly intended to provide a common national platform for all engineering and management students in the country to share & experience their technical skills and knowledge. Besides the branch specific workshops, the following events are organized:

- Paper Presentations, Poster Presentations
- Panel Discussions
- Workshops
- Project Expo, Treasure Hunt
- Robo War, Water Rocketry, CAD event
- Project Explorer, Technoconnet
- ARCADATHON, Hidden circuit, Spark plug
- TechnoTriva, Techgalaxy, App Development

ABOUT KITS, WARANGAL:

Kakatiya Institute of Technology & Science, Warangal popularly known as **KITSW**, is a 41-year-old institute, was established in 1980 by **Ekasila Education Society** (EES), Warangal, a philanthropic society, with a primary objective of providing quality technical education. KITSW is approved by the **AICTE, New Delhi** and recognized by the UGC under section **2(F)** and **12(B)** of **UGC act 1956**. The **UGC, New Delhi** granted first time **autonomous status in 2014** under Kakatiya University (KU), Warangal and has extended autonomy for a period of 5 years from AY 2021-22 to AY 2025-26. It is accredited by **NAAC with 'A' grade (CGPA: 3.21/4.0)**. The Government of India's **NIRF-2021** placed KITSW in **197 rank**. The Ministry of **MSME, Government of India** recognized KITSW as **Host Institute** to setup **Business Incubator**. The **AICTE-CII Survey of Industry Linked Technical Institutes** ranked KITSW as **GOLD CATEGORY institute** for the 6th consecutive year since 2015. The industry institute interaction cell of the institute has collaboration and **MoU with NIT Warangal** in the areas of teaching &learning, research& development.

At present, KITSW is offering UG in ten branches of engineering, PG in seven engineering specializations and MBA. The KU recognized the departments of CE, ME, E&I and CSE as research centers for Ph.D programmes. All the eligible UG engineering programmes have **active accreditation status granted by the NBA, New Delhi**. The Institute has a committed team of 4453 students, 285 qualified faculty members and 150 technical & supporting staff.

Located in 65 acres of lush green sprawling campus, KITSW is one of the premier technical institutes in Telangana state of India. Over the years since inception, it has attracted academicians of proven competence onto its faculty, augmented the infrastructural facilities, modernized laboratories, made its curriculum industry relevant, added courses in emerging areas and placed its graduates through campus placements, higher education in India and organizations across the globe, and thus received recognition among industry and academic circles.

Warangal city is well connected by rail and road. The institute is located at Yerragattu Gutta, Hasanparthy on Warangal-Karimnagar highway. The nearest airport is in Hyderabad.

ABOUT ISTE TS:

The Indian Society for Technical Education (ISTE) is a national, professional, non-profit making organization in our country which cooperates with central and state governments industry and approved institutions, professional bodies, AICTE, MHRD, DST and Individuals in the cause of technical education and research. The main objective of ISTE is to assist and contribute in the production and development of top-quality professional engineers and technicians needed by the industry and other organizations.

ISTE Telangana Section has been formed from erstwhileunited Andhra Pradesh Section, post bifurcation of the state. The aim of the section is to work in line with the national policy in providing value addition to students and faculty of technical institutions.

ABOUT ISTE KITS CHAPTER, WARANGAL

ISTE KITS Chapter was started in 1996. Most of the students are the members of the ISTE KITS Student Chapter and more than 120 faculty members have the life membership in the faculty chapter. The college is also an institutional member in ISTE.

ISTE KITS Student Chapter has the track record of successfully conducting periodically the national level technical symposium called "SUMSHODHINI" since 2003. Apart from this several workshops, guest lectures and other events were conducted under this chapter. This chapter has been declared as best ISTE student chapter of 2017 in Telangana State.

ABOUT SUMSHODHINI'22:

Focus on Civils to serve nation, students told

STATE BUREAU
Warangal

Additional DCP Vaibhav R Gaikwad exhorted engineering students to focus on the Civil Services after finishing their graduation to serve the nation. He also said that self-confidence, patience and consistency would help them achieve success in life and career.

Addressing participants at the national-level student technical symposium 'Sumshodhi-22' held at the Kakatiya Institute of Technology and Science, (KITS) campus here on Friday, he reminded that the KITS, Warangal, had already produced several top bureaucrats and technocrats.

THE PROJECT EXPO

Technical Club-KITSW & ISTE Student Chapter has organized a one of the central events "***THE PROJECT EXPO***", for Sumshodhini'22. With the dynamically changing hiring patterns by the big tech companies, addressing the real time problems and making sure the solutions could have a chance of being widely adapted, projects have been the most searched things over the Internet and on a graduating student resume.

The possible reason for all these patterns is the knowledge of how well student understand jumbled situation and solve it with his wisdom and knowledge he acquired. To make that project a better model, to know the level of challenges and innovation he/she implemented and most importantly the prospects of the real world is required. For that, this event provided a platform for studentsto show case their projects.

TRESURE HUNT

TRESURE HUNT

Technical Club-KITSW (TC) has organized a central event "Treasure Hunt", for Sumshodhini'22 .With the continuous participation in all the technical events, the brains of all the students were preoccupied with various thoughts. In order to reduce their stress, we came up with this event. Treasure hunt is an out and out fun event which does not require any pre-requisite knowledge. This is a fun event where the participants must find the treasure based on clues at the end of this event each and every participant was extremely satisfied with the conduction of the event. The aptitude and coordination skills of the participants were enhanced during this event.

ESCAPE ROOMS & Webinar on "RESEARCH & INNOVATION"

About Escape Rooms:

The Event was organized to build fun among the students and to provide them free time apart from their academics and test their creative thinking and brainstorming. The event consists of four rounds, first round is Riddle Round, Second round is Quick write round – Participants have to guess the movie and picture names, Third round is Scavenger round – Participants have to prepare the list of items/things which would match our budget, Final round is Rapid Fire round – Participants have to answer to the Logical and Funny questions. Participants had an undeniable and enjoyable experience of four interesting rounds and can enrich their problem solving and creativity thinking skills. Students have participated irrespective of the branch and college, they had participated as teams of minimum 2 members and maximum of 4 members. The event had successfully completed in a good manner and was well appreciated by many of the student participants with a rating of 4.8 on a scale of 5.0..

About Webinar on "Research & Innovation":

The Webinar was organized to provide the introduction about the various traits that Research & Innovation requires, the main aim of the webinar is to state that, the Research is to be conducted in a systematic process and impact of research is innovation. Research and Development plays a critical role in innovation process. It's essentially an investment in technology and future capabilities which is transformed into new products, processes, and services. Webinar covered almost all the topics ranging from schematic thinking requires to a researcher for a successful execution and innovation. The Webinar started with the ideation, how ideas of the researchers transformed into the innovation, many examples of existing researchers have been quoted, the webinar has focussed on various creative thinking strategies, product development research and research areas and successfully approached all the participants in a very well manner. The idea generation have been elaborated with many familiar examples, creating space and challenging assumption; thinking about the problem and relevant ideas, relevancy refers to how far the root cause pf problem remained undevoted in the solution or idea implementation think about it, mentally create time to researching about the things to explore the problems and coming up with solutions have been explained specifically.

The ways and steps for research and innovation have been discussed, these include the description of the process of innovation, innovative ideas and the competence that exists, ideas to planning and launch and Business innovation research strategy in which, understanding the type of project, community based project, identifying local community needs, executive summary of the project, including location, needs, intended solution, selection of the project title, UN sustainable goals, local community/ local stakeholder organization, Description of the prototype, Technology used in the project, open source platform and Project work plan and milestones. The webinar concluded with the proposal of IEEE benefits and opportunities for Research and Innovation.

The webinar on a parallel manner, resolved the queries posed by the audience through the chat option and comment option established by the organizers as an open channel for the audience to interact and gave an opportunity to resolve their queries.

DEVELOPMENT OF PROJECT USING IoT & ML

DEVELOPMENT OF PROJECT USING IoT & ML

At the outset team of the virtual workshop on "DEVELOPMENT OF PROJECT USING IoT & ML" would like to express their thankfulness for all the technical and motivational support given for successful conduction in combined association with ISTE-KITSW Student Chapter and Technical Club on 18th November 2022 on the occasion of Sumshodhini'22 – a national level symposium by Kakatiya institute of Technology & Science, Warangal.

The total number of participants registered for this workshop are 863 among which 900 pehave attended for the YouTube Live session. These participants are National wide engineering students hailing from 25 plus professional institutions. Among these participants, around 520 students are from our institution and the remaining 243 participants are from rest of the institutions in national wide and 11 foregin partipants from different countries like USA, Islamabad and Canada.

At the end of the workshop the e-Certificate of Merit/ Participation has been issued to every participant who had attended the Quiz and gained a score more than 70%.

We are happy to bring to your kind notice that the workshop is well appreciated by the particaipants with their support and encouragement for our event.

The workshop was organized to provide the introduction about the IoT and Machine learning , workshop covered almost all the topics ranging from basic to medium which follows the Hierarchy in IoT and next we introduced ML and how ML will solve the future generation problems and coming up with solutions have been explained specifically

DEPARTMENT OF CIVIL ENGINEERING

DWith that ever-increasing spirit and distinctive motto, the Civil Engineering Department has conducted technical events for SUMSHODHINI'22, a national level technical symposium organised by Indian Society for Technical Education, KITS Warangal chapter and Technical Club - SAC KITS Warnagal on 18th and 19th of November 2022. This is just one of many interactive events the department hosts throughout the year to impart knowledge to the students.

For the convenience of both participants and organisers, all activities were held across these two days. Below is a day-by-day breakdown of all the activities that took place.

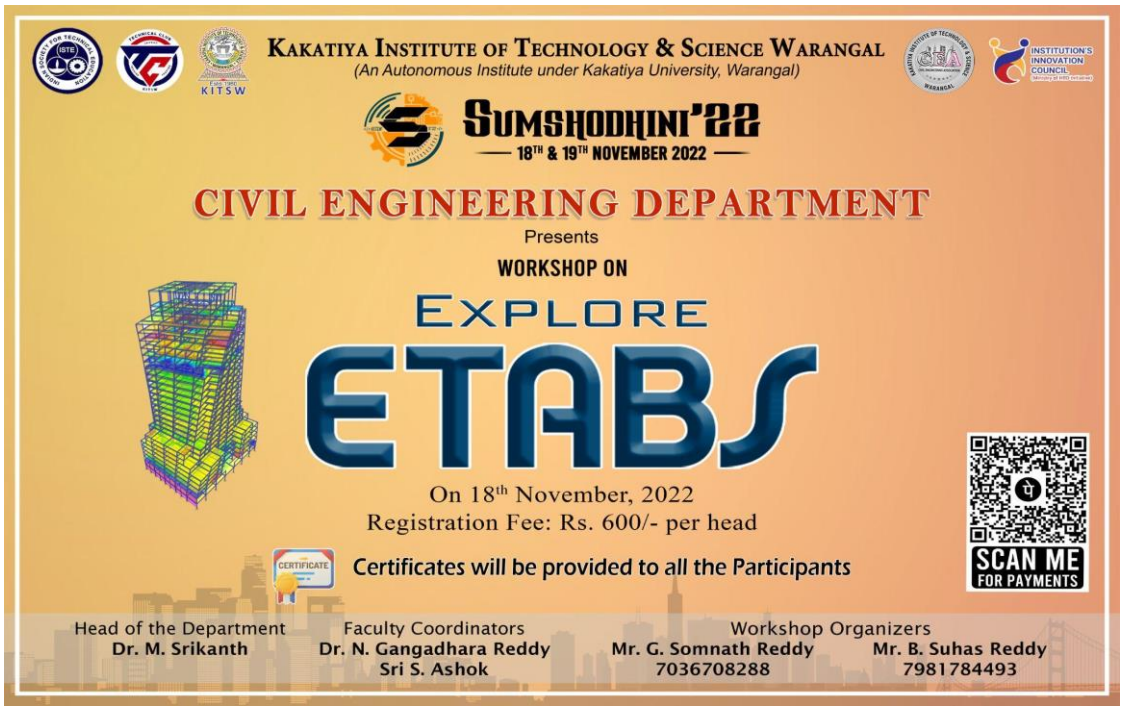
WORKSHOP ON *"EXPLORE ETABS"*



Date: *18th November, 2022*

Timings: 10:30 AM to 01:00 PM & 02:00 PM to 05:00 PM

Venue: Civil Engineering Software Applications Laboratory, Civil Engineering Department

Description:

The "EXPLORE ETABS" workshop is on an advanced analysis & designing software tool "ETABS" which stands for 'Extended ThreeDimensional Analysis of Building System' was organised with a key objective, that is to enable students understand how to analyse a structure using ETABS and to design a structure. The workshop started with an intention to improve the awareness on structural analysis and designing and make the participants understand how this software can make the work so efficient and accurate.The inaugural of workshop was started at 10 AM on 18th November, 2022 and the event was addressed by the Head of Civil Department, Prof. M. Srikanth. Workshop session started at 10:30 AM and ended successfully at 5 PM in the evening. Mr.

Mohammed Akhtar and his team from Cadd Center, Warangal acted as resource persons and explained the uses of ETABS software in the structural engineering field and its significance was explained. In the morning session, they taught the participants how to use the tools and graphics of the software. They have briefed about analysing and designing a structure and different ways of doing it using this software. In the afternoon session, participants had a hands-on session on the ETABS software. They have used the knowledge acquired in the previous session to design a structure. Resource persons made sure that all the doubts of participants were clarified.

All the participants gave positive feedback and felt that this workshop is very helpful for their future.

Evaluation Criteria:

1. Each participant can perform individually or in teams (Maximum of 2 per team).
2. The TIME ALLOTED to each team/participant is 10 minutes.
3. Question and Answer session will be handled over to the Faculty Organizers and Faculty coordinators and therefore the evaluation.
4. The PPTs are evaluated on the basis of five parameters:
    - Communication Skills
    - Presentation Skills
    - Technical Skills
    - Interpersonal Skills
    - Novelty

Brief Overview of the event:

This event started at 9 AM on 19th November 2022 i.e., on Saturday. All the participants were divided into 17 teams and each team was given some guidelines regarding the mix design procedure as per IS 2386. Participants were given 30 minutes to design a mix proportion for M25 grade of concrete as per the given guidelines and they were also instructed to calculate the quantity of each material which is required to cast a cube of 150

mm x 150 mm x 150 mm. And, they are also allowed to replace the fly ash in the place of cement by any percentage. Then, the participants are instructed to cast a cube within 1 hour. After 24 hours, the cubes were demoulded and cured for 3 days in the curing tank. Then, the casted cubes were tested under a compression testing machine. The winners were evaluated by the strength parameter as well as percentage of replacement of fly ash in the place of cement.

QUOTE IT! GRAB IT!

Brief overview:

The Quote It! Grab It! is the event about the real time mock tendering of construction activity. The participants will learn and improve technical knowledge about the process of tendering, estimations of various works and grabbing a project.

This event is conducted on three levels, in the first level part supply of 500 nominal size bricks, number of mazdoors, and effective cost of total bricks, participants will be quoted.

In the second level is Rate analysis of first-class brick work in 1m of wall with cement mortar (1:6). In this level participants are needed to estimate the number of bricks, required amount of cement mortar, fine aggregate, masons, female and male mazdoors, how much rate should be provided to each material including the tools and plants (T&P), water charges, and contractor profits.

In the third level we give percentage of steel in the beam participates are need to estimate the number of bricks, required amount of cement, Mortar, fine aggregate, masons, female and male mazdoors, how much of rate should be provided to Each material including the tools and plants (T&P), water charges, and contractor profits

Brief Overview:

This event started at 3 pm on 19th November 2022 i.e., on Saturday. All the participants were divided into 13 teams and each team was given 20 bricks along with an appropriate amount of fine aggregate and cement. The conditions of this event were to build an arch-shaped structure which was demonstrated by event organisers to all the participants before the commencement of the event. Participants were given 60 minutes time to complete their structure building without using a single drop of water and be ready for the evaluation. The evaluation went by checking the resistance of the structure along with a consideration of the least utilisation of bricks. The winners were declared by physical evaluation of their structure by putting an extra number of bricks on their structure built by each team and whose team stopped the maximum number of bricks upon it without falling is considered a good structure and was declared as the winning team.

MECHANICAL ENGINEERING

DEPARTMENT OF MECHANICAL ENGINEERING

An ensemble of versatile events and competitions serve as the backbone of Sumshodhini by fulfilling its motto of spreading Science and Technology. Young enthusiasts from all over the city converge at this magnificent platform to prove their mettle while having fun. On the behalf of Sumshodhini '22, the Mechanical engineering department had conducted several technical events organized by the Mechanical Engineering Students Association (MESA).

WORKSHOP ON "*DESIGN AND 3D PRINTING OF NOVEL COMPONENTS*"

Sumshodhini'22- A technical fest, was grandly organized in KITSW by all the departments from 18th Nov 2022 to 19th Nov 2022.

A workshop on design and 3-D printing of novel components, the main event of Sumshodhini'22 was conducted under the Department of Mechanical Engineering by the MESA team. The cherry on the proverbial cake was that the workshop was taught solely

by the skilled, talented, learned, and highly knowledgeable internal resource persons of KITSW from the department of Mechanical Engineering.

Date of Conduction: 18th Nov 2022
Time: 10:00 a.m. – 5:00 p.m.
Venue: AUTOCAD Laboratory, Block- IV
Event Description:

Session- 1

The first session was on the modelling of novel components.
Miss. Kavya Sree started the session by reading out the profile of the spokesperson, Sri. A. Hari Kumar, Asst. Prof., MED. Following this, Mr. Hari Kumar has beautifully and effectively educated the students on the modelling of 3-D components.

Session- 2

The second session was on introduction to additive manufacturing by Dr. G. Ganesh Kumar, Prof., MED. The session started after a brief description of Mr. Kumar and his profile. After acquainting Dr. Kumar with the students, he has done a wonderful job of teaching students about additive manufacturing.

Session- 3

The third session, an extension of the second session was to educate the students on the applications of additive manufacturing.
The session started by reading the profile of Dr. G. Sai Kumar, Asst. Prof., MED, the spokesperson of the session- 3.
Following the brief introduction of Mr. Sai Kumar, he taught the students how additive manufacturing was applied to produce components in real life and how they were used in synchrony with the human body.

Session- 4

The fourth session was focused on the education of students on the design and fabrication of a test rig to study the properties of the magnet used in the total artificial heart project.
The session commenced by reading out the profile of Mr. Rahul Vennam, a student in 4th Year, MED working on the artificial heart project.
Rahul Vennam taught the students how 3-D printing was employed in KITSW to produce an artificial heart's components.

Session- 5

Session five was on the modelling packages and an introduction to CATIA software.
The internal resource person who trained the students and equipped them with modelling skills in CATIA was Sri. V. Rakesh, Asst. Prof., MED.
The session started by reading out his profile and following it, Mr. Rakesh has done a wonder teaching the students about software in such a short period.

Session- 6

Session six was the last session of the workshop. It was undeniably the most awaited session. It provided an opportunity for the students to apply the theoretical knowledge gained from the morning sessions and design their components on a 3-D printer.

TECHNICAL PAPER PRESENTATION

Event Description:

Sumshodhini'22- A technical fest, was grandly organized in KITSW by all the departments from 18th Nov 2022 to 19th Nov 2022.

Technical Paper Presentation, one of the events was conducted under the Department of Mechanical Engineering by the MESA team.

Date of Conduction: 19th Nov 2022

Time: 11:40 p.m. – 1:00 p.m.

Venue: MCAD Laboratory, Block- III

Technical Paper Presentation beckons all the loquacious minds to scream out their ideas and learnings. It provides an interactive platform for the students to showcase their comprehension, communication, presentation, and spontaneous thinking skills.

In this event, the participants have to browse through various research papers published in the domain of mechanical engineering and pick the topic and the related paper they

find intriguing. Their task is to prepare a PowerPoint presentation on the research paper along with the bibliography concerned with the paper. They have to present the prepared PowerPoint presentation in front of the judges and other participants.
The number of registrations received was 10.

Event Judges and Faculty Mentors: Dr. E. Ramesh, Dr. Om Prakash

Student Coordinators: B. Varun – II Year, Kavya Sree – III Year, Md. Essamuddin Ahmed – IV Year

IDEA PRESENTATION

Idea presentation, one of the events conducted on 19th of November during Sumshodini'22 under the Department of Mechanical Engineering is a great opportunity to unveil innovative ideas or research work of a student. Participants don't have to be working on a project to present. Participants can come up and share any ideas/solutions they have for the problems in our day-to-day life. They have to prepare a PowerPoint presentation, design a poster and give an oral presentation on their idea or project in front the judges in the event. There is no domain restriction for participants. They can come up with any idea or solution related to any domain problems. It can also be an idea related to nature and technology. A participant with best ideaand presentation skills wins the competition.

At most of 3 members in a team is accepted. Each participant gets presentation time of 5- 6 min. After presentation 2 min will be given for Q&A session.

Venue: Mechanical seminar.

Timings: 10:00-10:45 am

Registration Fee: Rs.100/-

Event organizers: B. Srinija, M. Deekshith, S. Vinitha

ABOUT EVENT

The objective of the event is to impart racers technical knowledge without compromising fun. During the event participants will come to know how the performance of a racing car is being affected by changing various parameters and they will come to know how changes in design can affect the overall performance or efficiency of a vehicle.

Event Description:

This is a virtual racing through F1 2019 PC Game. In this event you need tocompete with co-participants in terms of setting up your car and racing on Track. The event is divided into 3 sections as follows:

- Practice (In this session you will get to know the game controls and you can customise the car parameters based on the track and weather conditionswhich can help your car to perform better. The parameters include
  Differential Adjustment, Camber, Toe, Down force, Aerodynamics,Suspension , Brake bias, Tyre pressure)

- Qualifying (It's a time trial format)

- Final Race Overall winner will be decided on considering the poleposition in the final race.

FLOW PROCESS OF EVENT

1. During Practicing each participant is given 30 min to get familiarize with the game controls and will come to know about the mentioned parameters.
2. Post the practice session participants are into the qualifying round where in first 8 participants will compete in 5 laps.
3. The top 2 racers in qualifying will be in to final race.
4. In the final round a track will be decided and top two participants fromthe qualifying rounds are competed in 5 laps with same race track.

Business Plan Presentation

Sumshodhini'22- A technical fest, was grandly organized in KITSW by all the departments from 18th Nov 2022 to 19th Nov 2022.

Business Plan Presentation, one of the events was conducted under the Department of Mechanical Engineering by the MESA team.

A business plan is a formal statement of a set of business goals, the reasons why they are believed attainable, and the plan for reaching those goals. It may also contain background information about the organization or team attempting to reach those goals. It is a document mapping the company's future course of action and projections. Main objective of the event is to present a formal business plan for a venture which is financially sustainable, logically feasible, and has a social or environmental cause incorporated in its mission.

CAD MODELLING

The event consists of designing a given component accurately and in a better way in less time as compared to your competitor.
The event is held in two rounds:

1. Qualifier.
2. Final round.

Two of the best designers in among will be the champions.

ROBO RACE

The event is about designing and fabricating a BOT that is well-engineered and expected to run through an all-terrain track in the least amount of time compared to other competitors. The event is divided into 3 sections. An overall winner will be decided considering the total score obtained in the above two sections combined. Rules and regulations, scoring criteria, Track details, and winner price details will be provided in the event detailed description file.

Stack Up & Scatter

Stack up and scatter is a technical event organized by the Mechanical Department of KITSW for Sumshodhini 2022. It is a platform for the students to check their creative thinking and take it to the next level. It consists of three rounds at every level and only people with creative thinking can make it to the finals.

FIRST ROUND- The first round consists of the disassembly of a cycle in the allotted time.

SECOND ROUND- Assemble the Disassembled cycle in a given time.

THIRD ROUND-Fully assembled cycle must ride 200 meters in the shortest span.

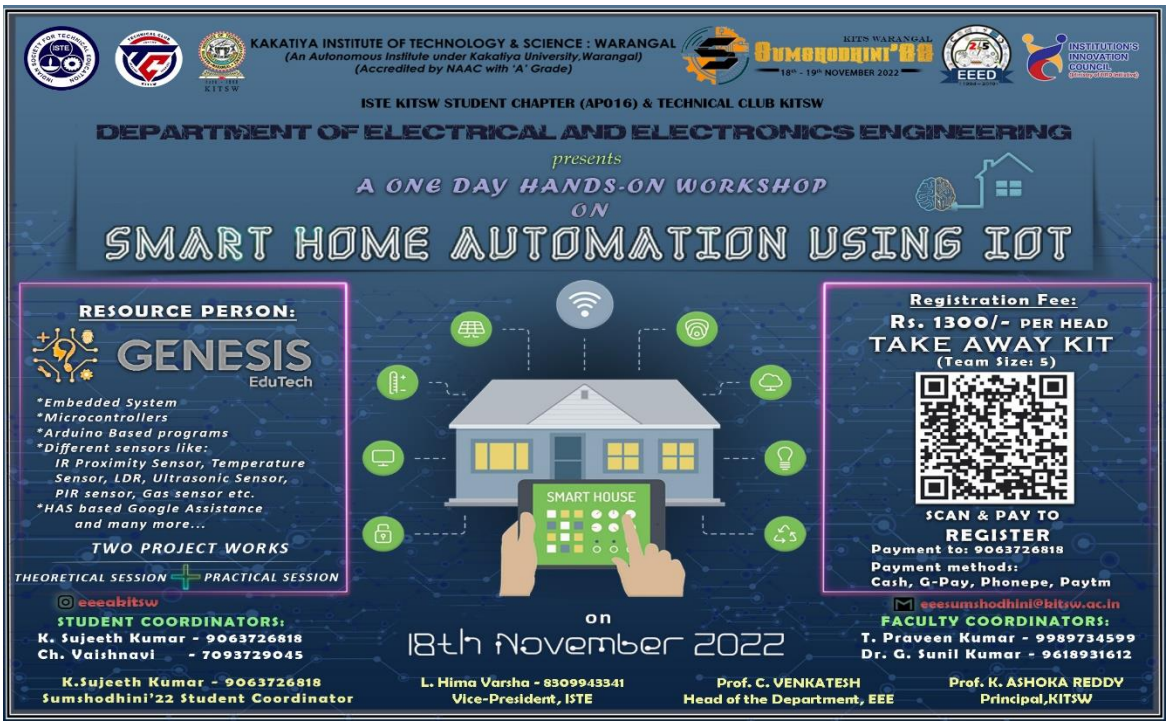
ELECTRICAL AND ELECTRONICS ENGINEERING

Sumshodhini'22, A National Level Technical Symposium revival is back with booming events from the department of ***Electrical and Electronics Engineering (EEE)*** in association with ***ISTE student chapter & Technical Club*** is conducting a one-day hands-on practical Workshop on "**SMART HOME AUTOMATION USING IOT**" and other technical events which is going to be held on 18th and 19th of November 2022.

The events which are going to be conducted during these two days are as follows:

Sl. No.	Event Name
1.	Workshop on "Smart Home Automation using IoT"
2.	Paper presentations
3.	Poster presentations
4.	Technoconnect
5.	Enigma Chase

WORKSHOP ON *"SMART HOME AUTOMATION USING IOT"*



The role of an engineer is to reduce the human intervention and make the society bind with the trendy technology like Internet of Things. One such application is Smart Home Automation, it makes life more convenient and can even save your money on heating, cooling and electricity bills. The control of home is done on a single tap using a smart phone.

The Workshop resource person is an R&D head, **Mr. Yogesh Bhole** from **Genesis EduTech** which is an India's leading firm into STEM Education through Robotics, Drones, 3D Printing, IoT, AR&VR, AI and more. They have provided training to students of IITs NITs BITs and many big institutions around India. Genesis EduTech have been providing technical training to students of all fields. Their main aim is to make students of India more and more affectionate towards technology and bridge their gap of knowledge.

There will be a kit provided in the session which you can take home. Based on that kit, participants will be assigned with two project works which will be guided by the resource person.

The following are the workshop content deliverables:

1. Introduction to Microcontroller and Microprocessor
2. Introduction to Internet of Things
3. Home automation using IOT
4. Pin Diagram of NodeMCU (microcontroller board with in-built WIFI module)
5. The kit will be provided to each team consisting of 5, the practical hands-on session will be conducted on the microcontroller NodeMCU and different types of sensors like LDR sensor, PIR sensor, Gas sensor, Temperature sensor, Ultrasonic sensor, also, DC motor and driver circuit which are related to home appliances.
6. Two project works namely "Blynk IoT with mobile application for lighting control" which is an Arduino IDE based coding and "Wireless speed control of dc motor with dc driver circuit."

Workshop Outcomes:

By the end of this workshop, one will be able to,

1. Know the basic applications of IOT for home appliances.
2. Build a custom Smart Home based on knowledge gained by the practical hands-on session.

Registration Fee: Rs.1300/- per head

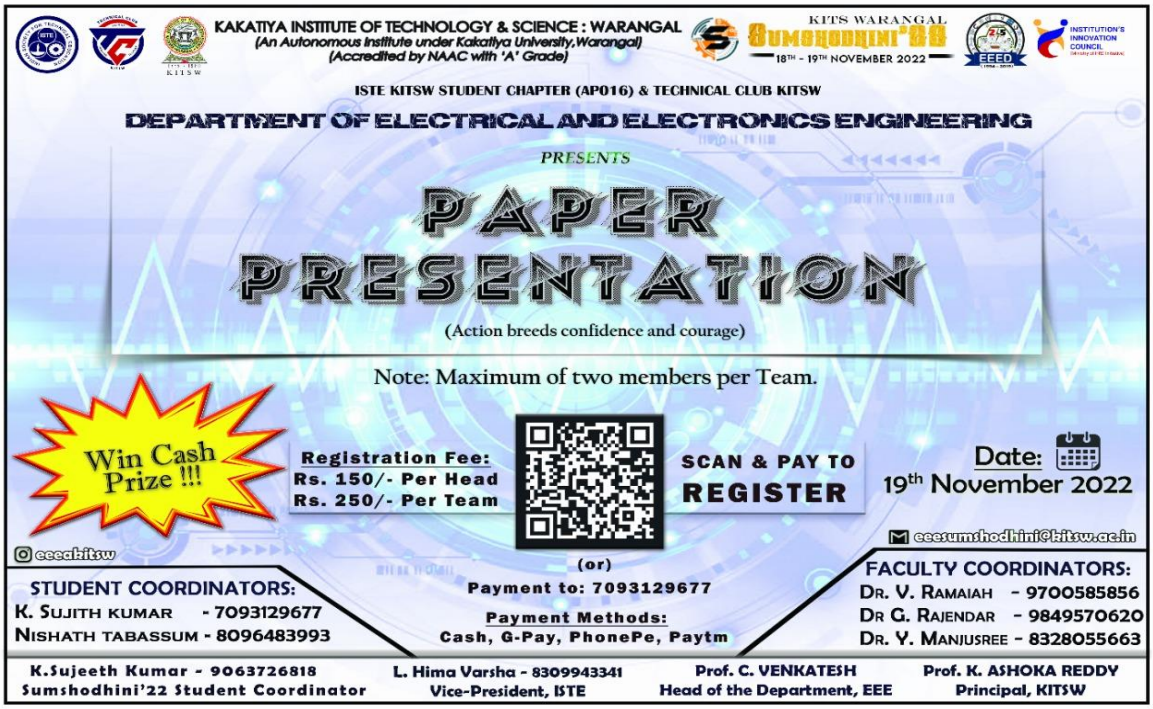
PAPER PRESENTATION



Paper Presentation is all about how effectively your idea is conveyed to the audience. Paper Presentation not allows judges the knowledge but also the creativity in that individual and hence the participant will be assessed in various criteria like presentation style, communication skills and how promptly and effectively he/she is able to answer the questions.

Once the participant is registered, they have to make soft copy of their Presentation in PPT format and they have to forward Abstract & PPT to the mail id provided by the organisers. And also, participants should make sure to attach a slide which includes acknowledgement of sources of their presentation at the end.

Event Outcomes:

By the end of this event, one will be able to,

1. Make effective presentations and present effectively.
2. Know how to implement many other technologies presented during the event.

Event Guidelines:

1. Each team can consist of maximum 2 members; it is not mandatory to form a team.
2. Participants have to send their final PPT to the mail id provided.

Event Details:

Registration Fee: Rs.150/- per head
Rs.250/- team of 2.

Event Date: 19th Nov 2022 (9:30AM - 12:30PM)

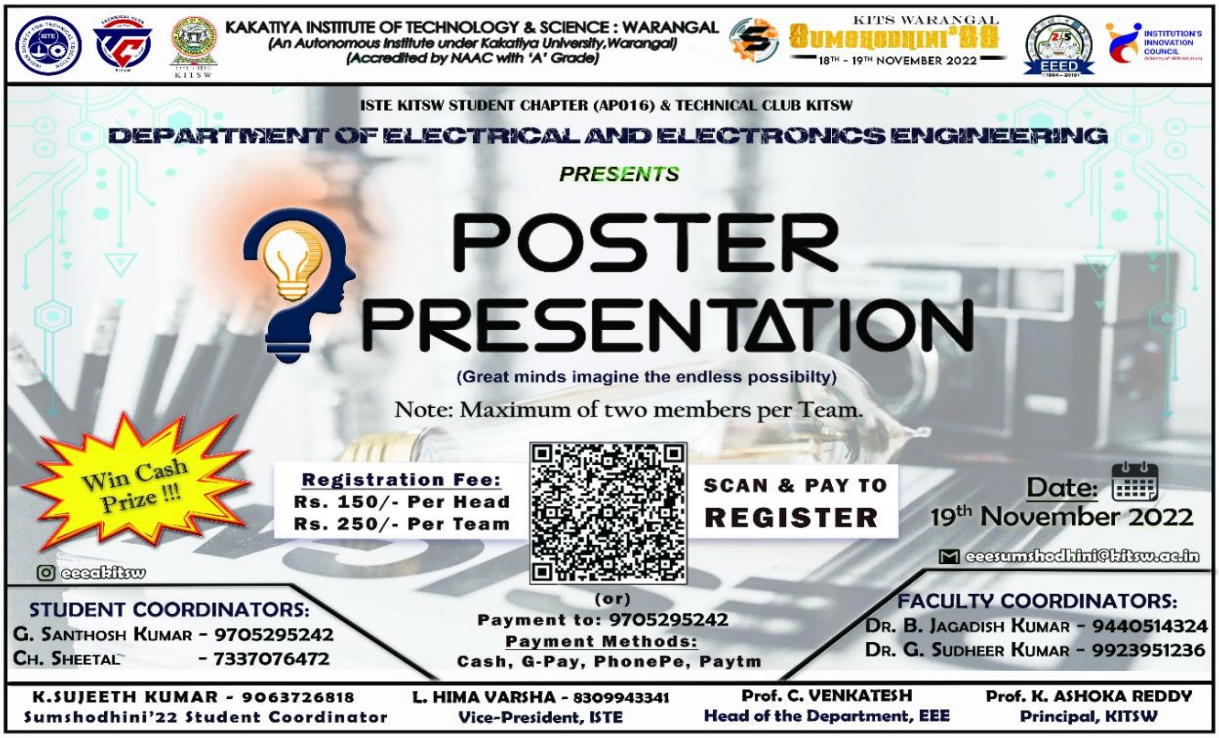
POSTER PRESENTATION



Presentations are a form of art where one Poster presentation is a form of art where one conveys their idea in the form of PowerPoint presentation, poster, art, etc. Poster Presentation is one such form, which enhances the technical creativity in the participants by enabling them to summarize their idea in the form of a poster. This event, on the whole, assesses the participant in the terms of creativity used in conveying their idea.

Event Outcomes:

By the end of this event, one will be able to,create posters by visualizing the data available related to their project. Present effectively and know the weaker areas in their communication skills.

Event Guidelines:

1. Participants have to present the idea or concept in which he/she interested by means of a poster.
2. Each team may consist of maximum 2 participants.

3. Members of a team may be from same college or different.
4. Maximum time for each team of presentation is 10 minutes.
5. A team member can't be a part of more than one team in the given competition.
6. The decision of the judges or coordinators shall be treated as final and binding on all.

Event Details:

Registration Fee: Rs. 150/- per head
Rs. 250/- per team (2 members)
Event Date: 19th November, 2022 (9:30AM - 12:30PM)

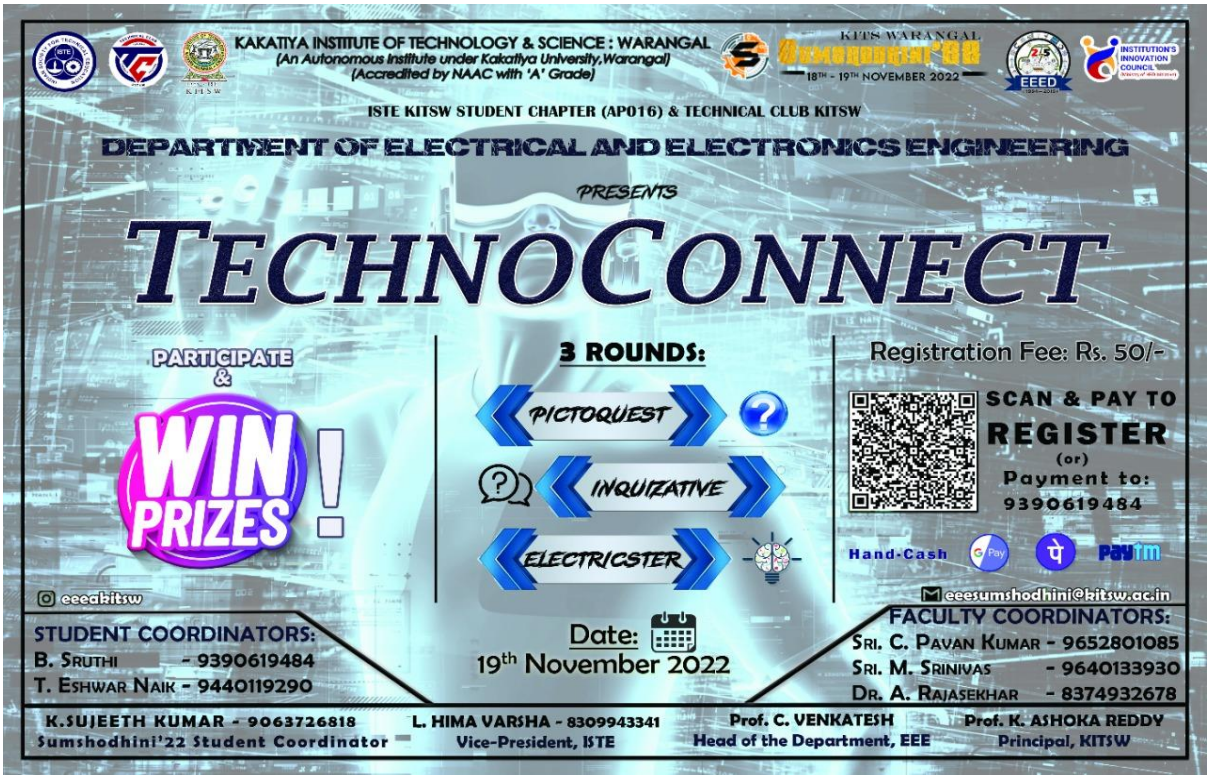
TECHNOCONNECT



An electrical engineer must have a grip on the fundamentals of the electrical course. It is believed that with a good understanding of the basics, the candidate can get to solve the problems of the advanced level or real-time problems. And also, whatever a candidate

learns, it must be learned not only with utmost focus and dedication but also with a fun-loving attitude. The rounds which help them analyse those parameters are as follows -
1) Pictoquest: This is the very first round & deals with the emojis/pictures where the participant has to guess the answer by combining all the displayed pictures altogether.
2) Inquizative: In this round, the participant has to select any one of the given options for the displayed question.
3) Electricster: This is the final round where the participant has to guess the answer for the given riddle with the help of the clues given along with each question.

Event Outcomes:

By the end of this event, one will be able to,

1. Participant can improvise their basic knowledge about electrical courses in a fun manner.
2. By the end of the event participants were able to improve their logical and critical thinking skills in a very unique and interesting way.

Event Guidelines:

1. The event is conducted on an individual basis so there are no teams.
2. There is no branch or college restriction to participate in this event.
3. Questions of each round will be displayed on your screen one by one and you need to write the answers on a piece of paper along with your name and roll number (stationary will be provided)
4. Each question will be displayed for a specified duration only and will not be displayed again.
5. Based on the total score winners will be declared.

ENIGMA CHASE

Apart from academics, involvement in other activities is also an important thing in a student's life. One such event i.e., **Enigma chase**, which is a techie-fun event that helps the students to improve their logical thinking, relieves the stress, sharpen the brain and explore the KITSW campus.

This event is going to be held physically at the KITSW campus which allows the participants to plunge into the race of mystery chase. Probably, the best event which blasts your boredom and open the gateway of the techie-fun kingdom by brain lighting your thinking ability to the riddles asked.

In this event, 20 clues are provided to each of the participants and which are completely related to college campus premises, participants should have to chase the mystery place and take a picture of that place in less time which can be used for evaluation.

Event Guidelines:

1. The event is conducted on an individual basis. So, there are no teams.
2. There is no branch or college restriction to participate in this event.
3. Clues for the places are given in a sheet.
4. Participant has to decide the clue and find the place.
5. Each Mark will be provided for every correct place.
6. Based on the total score, winners will be declared.

Event Outcomes:

By the end of this event, one will be able to,

1. Participants have enjoyed a lot by exploring the college.
2. Participants were able to improve their logical and critical thinking skills in an interesting way.

Event Details:

Registration Fee: Rs. 50/- per head.

ELECTRONICS AND COMMUNICATION ENGINEERING

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

About the Department:

The The Department of Electronics and Communication Engineering was started in theyear 2000. The department is running one UG Programme in B. Tech (ECE) and one PG Programme with specialization in Digital Communication. The B. Tech Programme was started in the year 2000 with an intake of 40 students, subsequently the intake was increased to 60 in the year 2001 and to 90 in the year 2009 and in year 2011 the intake got enhanced to 120 and presently the intake is 180. The post graduate programme in M. Tech (Digital Communications) has an intake 25. The Department has state of the art laboratories such as Analog & Digital Simulation Lab, Microprocessor & Microcontroller Lab, Pulse Digital Circuits Lab, Analog Communication Lab, Digital Communication Lab, Microwave & Optical Communication Lab, Signal Processing Lab, Digital Electronics lab and are regularly upgraded to meet the current changes in Electronics and Communications. The Department hosts a very good library which is accessible to both students and staff. The syllabi of the courses are periodically updated taking into fold the rapid changes inthe field of Electronics & Communications.

The Department has dedicated and dynamic faculty members. The department has9 doctorates and remaining all with PG degrees from reputed institutes. They continuously strive to maintain the academic standards of the institute.

The faculty has a zeal for research and it is reflected by their publications in various National and International Journals. Faculty have attended in as many as international conferences and presented their work. They have also published their work in 37 referred journals. Most of the referred journals are SCI indexed. The department also boasts of filingpatents under intellectual property office of India.

Department has been funded with Rs.41.36 lakhs by SERB-DST for the project entitled "Design and development of Printed Microstrip antennas for LTE and GPS Applications" under the guidance of Dr. M. Chandrasekhar. As a part of it a well-equipped laboratory has been established to carry out his research work on antenna development. Sunil Raja Manchili has been recruited as a junior research fellowto

supportresearch work for a period of three years.

Many of the students of the department get placed on campus every year in reputedIndustries like GE, TCS, Mphasis, AD3i, ZenQ, Hexaware, ValueLabs, Value Momentum, Edupolis, Ninjacart etc. In- addition the students fare very well in other competitive exams like TOEFL, GRE, GATE etc. and are pursuing their higher studies at premier institutes in India and abroad. Department is continuously striving to increase the placements and to make the students ready to face the competitive world with their technicalknowledge.

To keep the students abreast with the latest technology students are guided to visit various industries. As part of this norm the students have visited many industries like HAL, DRDO, RCI, BHEL etc every year. The students are also encouraged to pursue internships at various industries.

About the Symposium:

As per the culture of Kakatiya Institute of Technology and Science, every academic year KITSW Student Activity Centre (SAC) and ISTE Student Chapter organizes SUMSHODHINI, a National level Student Technical symposium for the aspirants assembling from various engineering colleges with a veryhigh competitive spirit to participate and with the strong determination to include their achievements & accomplishments to their resumes. It also enables the students to develop leadership and organizing skills. This fest is organized every year with the objective to provide platform for the students to showcase their talent with a competitive spirit. This year SUMSHODHINI'22 was organized on 18th-19th November,2022. The event was successful enough to attract as many as 449 registrations. As part of SUMSHODHINI'22, department of ECE executed with a total of 7 events planned and organized at its best of quality.

Focusing on the types of events to include in the fest was decided by fest coordinators keeping the interest and need of the engineering student into consideration. Students have actively participated in all the events and presented their work. The events of the ECE department were planned, executed and have managed to gather maximum response. The events are Paper Presentation, Poster Presentation, Technogeek, Count me in, 404 error, Mindsweeper, Run for fun.

A one-day workshop on "IOT BASED CONTINUOUS MONITORING SYSTEM USING CLOUD SERVICES" have been conducted for welfare of the students. A total of 106 students have participated in the workshops.
A worth witnessing response is observed for the workshops and the knowledge the students have gained was valuable and informative.

The following were the list of technical events organized:

1) Workshop: "IOT BASED CONTINUOUS MONITORING SYSTEM USING

CLOUD SERVICES"

2) Paper Presentation
3) Poster Presentation
4) Technogeek
5) Count me in
6) 404 error
7) Mindsweeper
8) Run for fun

The winners were encouraged with a cash prize for all the events. Department feels proud to organize such a successful event and would like to convey thanks to Head of the Department, Principal and management for their timely advice and cooperation for organizing successful Fest. Not to forget final year and pre-final year students of ECE Department also deserve thanks for contributed their complete effort and participants for making "SUMSHODHINI'22" a grand success.

As part of Sumshodhini'22, on behalf of the department, the students of B. Tech. (EIE), B. Tech. (ECI) & M. Tech. (EV) in association with ISTE student Chapter and Technical Club, KITSW are organized a technical workshop - "WORKSHOP ON DRONES" on 18th Nov 22. Drones are used for various reasons like surveillance, traffic monitoring, firefighting, personal use, drone-based photography, etc. Now a days drones are widely used in agriculture, they can be used on nearly any kind of crop, including rice, wheat, corn, citrus trees, cotton, and much more. In addition to covering more land at a lower price, drone spraying can offer major environmental benefits.

This workshop teaches you the fundamentals of Drones that is introduction to types of UAV's, applications of UAV's, Multirotor (a helicopter having more than two rotors), fixed wing, about Hybrid UAV's. It also focuses on Introduction to the fundamentals of aerodynamics and principles of flight. It also includes the components of drones (BLDC motor, ESC, Flight controllers, Radio controllers, power distribution, gps, mavlink, BEC), Design of fuselage and frames.

Finally, the workshop ended up with practical session, which consists of assembling of frames and power distribution as well as assembly and connections of propulsion systems.

1 - Day Workshop on Drones [18th November, 2022]

What will you learn after attending this Workshop:

Here is a small description of our workshop which is conducted on drones we have learnt many things about its pros and cons

Here are some applications of drones

- Military Applications
- Helps Emergency Responders save Lives.
- Makes Inspections More Efficient.
- Helps Greatly with Scientific Research.

Here we have some disadvantages on drones

- UAVs can be hijacked or manipulated.
- Endanger wildlife and ruin tourist experiences.

We have learnt to simulate and individual parts of each component and description of each part so here. The students have learnt to assemble the drone and learnt its importance of each and every particular part of the drone.

Applications you can make using this kit:

- Aerial Photography & Videography.

- Real estate photography.
- Mapping & Surveying.
- Asset Inspection.
- Payload carrying.
- Agriculture.
- Bird Control.
- Crop spraying.

Workshop Benefits and & Highlights:

Here as we have mentioned above the particular that how the simulation (controlling of remote of drone) and assembling of drones as it is very expensive, we made sure that every student has done through hands And every student has flew the drone in our college premises everyone and happy. Everyone has given good response about our workshop. They felt happy and satisfied about the workshop

CONTENTS

Session 1:

- Introduction to UAV's
- Types of UAV
- Application of UAV
- Multirotor
- Fixed wing
- Hybrid UAV
- Selection of suitable drone
- Introduction to fundamentals of aerodynamics
- Introduction to principles of flight
- Components of drones (BLDC motor, ESC, flight controllers, radio controller, power distribution, gps, mavlink, BEC)
- Design aspects of fuselage and frames

Session 2:

- Frame selection and development
- Practical section: assembly of frame and power distribution
- Practical section: assembly and connections of propulsion system
- Practical section: Flying the drones

Registration Fee: Rs. 1,199 per head
Venue: Block-V, VC Lab
Student Coordinators: E. Bala Brahmaiah & Daniya Zaki

ARCADATHON 2.0

Venue: Measurements Lab, Block-I
Organized by:
S. Deepika Reddy – 9347584996
P. Divya Sri –9121877691
G. Deepshika– 9346141525
M. Sai Nikshitha– 8328041965
Registration Fee: Rs. 60/- per head
Participation Certificates are provided.
The event is completely fun-filled event consisting of 3 rounds, which are

1) Brain O Booster
2) Guess me
3) Who's Einstein?
4) Surprise Round

Round 1: Brain O Booster
We'll have a small quiz based on general knowledge.
Round 2: Guess Me
The participants have to guess the Logos of different companies' /brands/ products that are displayed.
Round 3: Who's the Einstein?
A Group of words will be displayed for a few seconds, the participants have to memorize the displayed words and write them on the paper given to them. Who writes the maximum number of words will win.
Round 4: Surprise Round
This round will be informed to the participants after the successful completion of the above three rounds.
Cash Prizes:
1st Prize: **Rs. 750/-**
2nd Prize: **Rs. 500/-**
3rd Prize: **Rs. 350/-**
Winners:
Team – 1: Akshith, Kanksha, Vyshnavi Patel, Akshitha, Prem Prajwal.
Team – 4: G. Karthik, Raghu Charan, S. Krishna, G. Rishik, Santhosh.
Team –2: A. Kamal, Krishna Mohan, Yaseem, Gnaneshwar, Dhivakar.

Registration Fee: Rs. 50/- per head
Participation Certificates are provided.
The event is completely fun filled event consisting of 3 rounds, which are

1) What is Similar
2) Fractal
3) Where are you from?

Round 1: What is Similar

We'll display images of 2or3 different movies for each team, each slide has something common in with the movies displayed. The teams have to find what is the common thing in those 3 movies. If they answer correctly, they get 10 points and they can pass the question to the next team. If the passed question is answered correctly, they get 5 points.

Round 2: Fractal

Scattered letters, which form a word when arranged properly, will be displayed for 20 seconds, and each team is given a sheet where they need to write the answers. They have to guess what that word is. Each correct answer will earn them 10 points.

Round 3: Where are you from?

In this round, we will display memes templates for 15 seconds for each team. They have to guess the movie name from which the template has been taken, and they have to explain the scene or tell the dialogue.

Cash Prizes:
1st Prize: **Rs. 500/-**
2nd Prize: **Rs. 300/-**
Winners:
Team – 4: Raghu Charan, Nandini Mahalaxmi.
Team – 5: B. Varun, Bhanu Teja, Devaraj, Sidhartha, Nandu.

Participation Certificates are provided.

The event is completely fun-filled event consisting of 3 rounds, which are

1) Quiz
2) Circuit Hunt
3) Build The Circuit

Round 1: Quiz

We'll explain a ppt regarding IoT and based on the given explanation a quizzy link is provided to the participants, the result of the round will be projected on the screen accordingly with the correct answer and less time taken to answer the questions.

Round 2: Circuit Hunt

In this round, Clues are hidden at various places in the college, the participants have to go and find the clues with their teammates with the 1st clue provided by us to each team.

Round 3: Build the Circuit

In this round, the participants who will find all the clues and come to the lab will be given the components and will work on building the circuit with the given components.

Cash Prizes:

1st Prize: Circuit & **Rs. 500/-**

2nd Prize: Circuit

Winners:

Team – 6: L. Sathwik, G. Sukdev, K. Abhishay, Revanth

COMPUTER SCIENCE & ENGINEERING

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

As per the culture of Kakatiya Institute of Technology and Science, every academic year KITSW Student Activity Centre (SAC) and ISTE Student Chapter organizes SUMSHODHINI, a National level Student Technical symposium for the aspirants assembling from various engineering colleges with a very highly competitive spirit to participate and with the strong determination to include their achievements & accomplishments to their resumes. It also enables the students to develop leadership and organizing skills. This fest is organized every year with the objective to provide a platform for the students to showcase their talent with a competitive spirit. This year SUMSHODHINI'22 was organized from 18th - 19th November 2022

As part of SUMSHODHINI'22, the department of CSE executed a total of 8 events planned and organized at its best of quality. Fest coordinators decided to focus on the types of events to be included in the fest, taking into account the interest and requirements of the engineering student. Students participated actively in all events and presented their work. The events like PPT PRESENTATION, POSTER PREPARATION, LOGIX V5, INFOCRUISE, TECHNOPHILIA, ULTRON'22, WEB DESIGN and TECH WIZARD were planned, executed and have managed to gather maximum response. A one-day workshop on "DATA VISUALIZATION USING TABLEAU" has been conducted for the welfare of the students. A total of 102 students have participated in the workshop.

The following were the list of technical events organized:

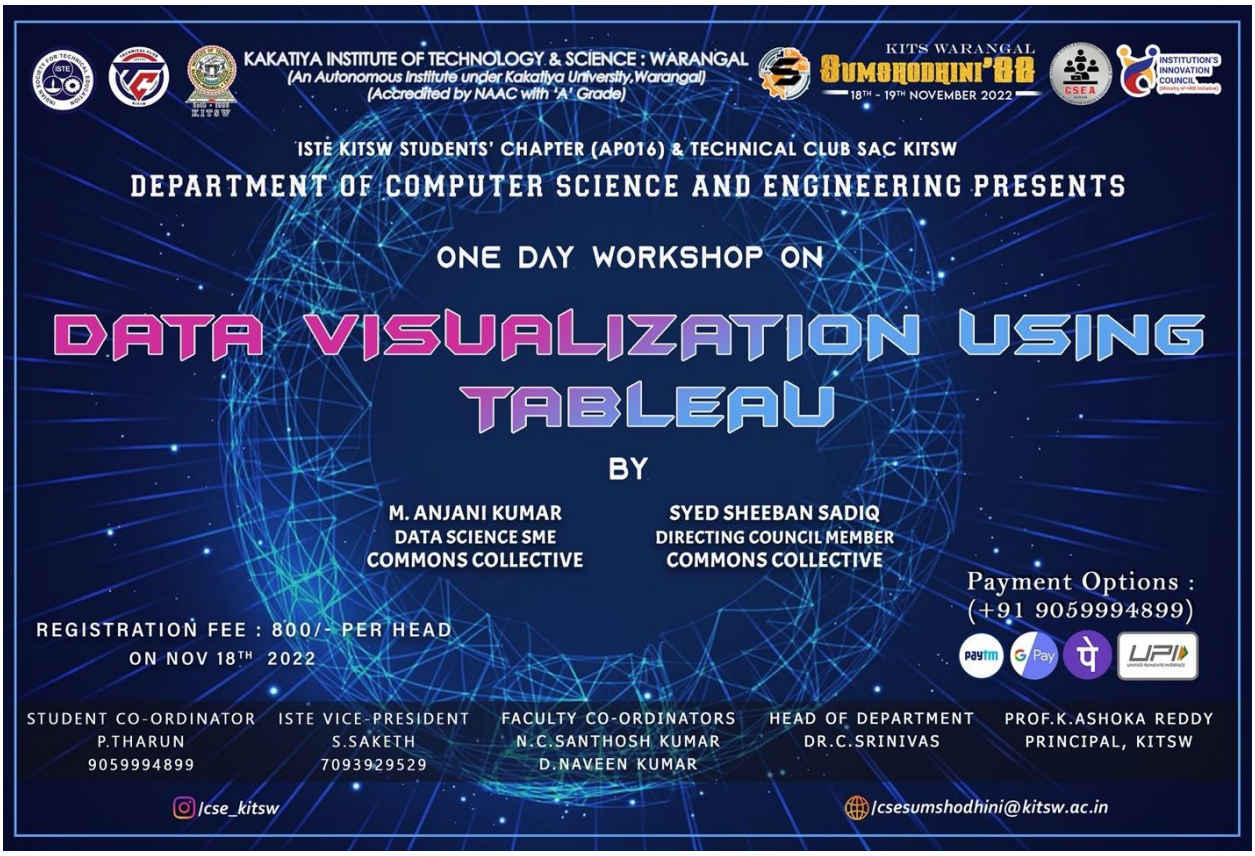
1. Workshop: "DATA VISUALIZATION USING TABLEAU"
2. Paper Presentation
3. Poster Presentation
4. Logix V6
5. Infocruise
6. Technophilia
7. Ultron'22

8. Web Design

9. Tech Wizard

The winners were encouraged with cash prizes and merit certificates for all the events. Every participant will be given a participant certificate. The Department feels proud to organize such a successful event and would like to convey thanks to the Head of the Department, Principal and management for their timely advice and cooperation for organizing a successful Fest. Not to forget final year students of CSE Department also deserve thanks for contributing their complete effort and participants for making "SUMSHODHINI'22" a grand success.

WORKSHOP ON *"DATA VISUALIZATION USING TABLEAU"*



The program was all about Data Visualization using Tableau. It is basically a way to represent information graphically, highlighted patterns and trends in data and helping the reader to achieve quick insights and Tableau is a software, where we do all these things. Mr. Anjani Kumar and Mr. Syed Sheeban Sadiq from Commons Collective were the trainers for the program. Students were given practical exposure on how to create dashboard with Zero programming language as a part of the one-day workshop and at last all students had developed a real time project which add weightage to their resume.

Contents covered:

1. Tableau Overview
2. Tableau Desktop
3. Data Connection/Manipulation
4. Visual Analytics
5. Data Preparation
6. Building Visual and Dashboards
7. Q & A session

ULTRON'22

Ultron 22 is an event for 1st, 2nd and 3rd year students from CSE department. This event consists of Three rounds. In this event both a team of four, three , two and individual are allowed to participate. This event is conducted to for their entertainment and improving their presentation skills and also coding knowledge. The event is conduct on 19thNovember,2022 from **9:00 to 10:00** in **WT Lab**

Total number of Students registered for this event: 50

In this event, the organizers are Krishna Mohan, Manaswini, Nutan, Sai Harshith. The event started at 8:45 a.m. through meeting organizers, student advisor Aishwarya, Prasad and faculty advisors S.Swapna, R. Rajesh attended the Event which continued till 10:00 a.m. This event consists of four rounds.

ROUND-1: MOVIE TRIVIA

This round consists of movie templates and participants are supposed to say the dialogue of that template.

ROUND-2: TECH EVE

In this round, Basic level of technical questions are to be answered.

ROUND-3: DEPICITION ROUND

In this round, all teams, a picture is shown to you. You have to analyse and describe that picture as good as possible.

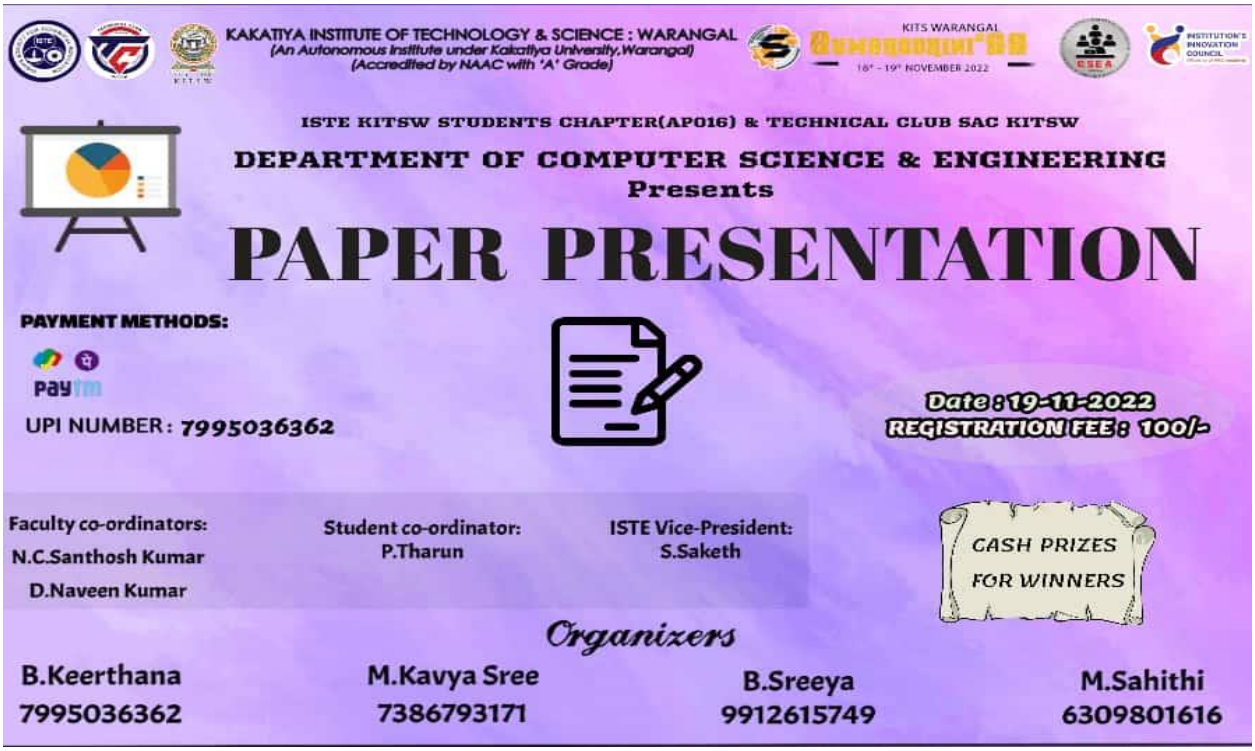
PAPER PRESENTATION



Paper Presentation is an event, conducted exclusively for 1st ,2nd and 3rd year students. In This Event team of two and individual are allowed to participate. This event is conducted to improve the presentation skills. The Event is conducted on 19th November 2022 from 10:00-11:00 in WT Lab & SE Lab.

Total Number of Participants for this event: 47

EVENT DESCRIPTION:

Paper presentation plays an important role in conveying your idea to the audience in a way that the message stays with them even after the presentation is over.

PROCEDURE:

1. Select a creative technical topic by referring to any of the IEEE research papers.

2. Write an abstract of 200 words on the selected topic and submit it to the event organizers 2 days prior to the event (on or before 17-11-2022)

WEB DESIGN

EVENT DESCRIPTION:

Web Design is an event for 1st,2nd and 3rd year students form all the branches. This event consists of only 1 round. In this event there are only individuals are allowed to participate(no teams). This event is conducted to improve their Creative skills and the prior knowledge on the web designing. This event is conducted on 19th November 2022 from 11.20 to 12.30 in the VC Laboratory.

Total Number of Registered Students : 61

In this event, the organizers are D.Nithin, B.Harshitha, G.Manivyas, G.Varsha. The event started at 11:20 A.M. student advisors Shashank and Sumanth and faculty advisors vijay kumar sir, Waseem sir and Parameshwari ma'am attended the meeting which continues till 12:30 P.M. This event only consisting of 1 round and its all about designing a website. So here the winners are declared based on some categories like UI (User Interface), Colors, Content and Animations.

In this event as there are no rounds, so the event mainly divided into 2 parts they are:

1.Exploring the Tool: In this part, in order to design a website, we used the tool called WIX. A proper basic guidance is given to the participants. Firstly, the participants are instructed to login into their WIX tool with their own domain mail id's. Next the speaker D.Nithin addressed and explained the WIX basic interface. And next the speaker demonstrated the building of the website with an example.

The speaker in the event addressed the following points that website is to be built from scratch and also said that coding is not required, the WIX dashboard features, and preview features and the contents like

- Understanding Header and Footer
- Use of Quick Edit
- Understanding the Text
- Understanding the Images
- Understanding the Buttons
- Understanding the Images

- Understanding the Strip
- Understanding the Decorative
- Understanding the Boxes
- Understanding the Gallery
- Understanding the Menu
- Understanding the Form
- Understanding the Media- Videos
- Understanding the Interactives
- Understanding the List
- Attaching social media
- Making dynamic pages using Menus
- Making dynamic pages using Buttons
- Adding animations to everything
- Adding colors

Here the participants are provided with a theme called "Building up a website for your Business". So, by considering these points the participants showed up their creative skills.

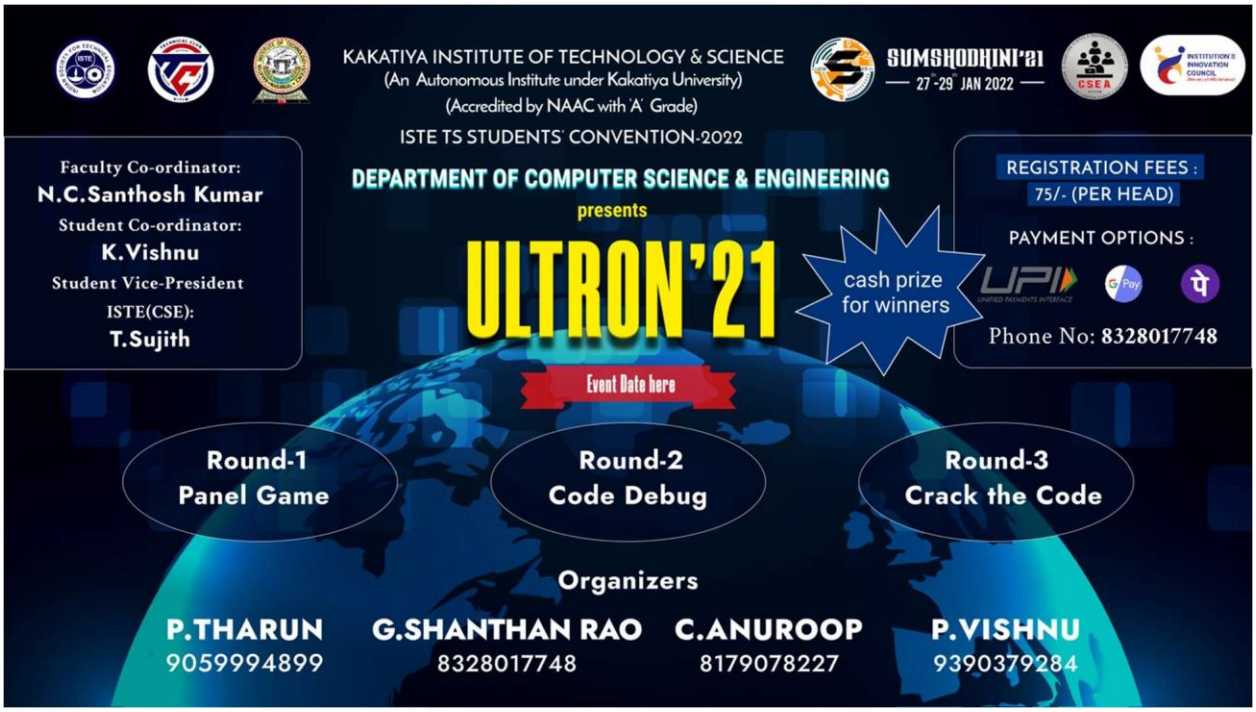
LOGIX V6



Logix V6 is an overall skill assessing event, conducted exclusively for 1st and 2nd years engineering students. Our team curated questions, taking into consideration, the syllabus of 1st-year students. Aptitude, Knowledge of Science of Computer, Problem-solving and speaking spontaneously are the life skills a student has to possess, throughout their career. The main motto of our event is to provide 'Education with Entertainment' by introducing our juniors to these important skills.

EVENT DESCRIPTION:-

ROUND 1: Quiz Blast

Questions on aptitude and General Computer Science are posed to the participants using https://quizizz.com/. There will be 12 questions and time duration of 10 minutes.

ROUND 2: Rapid fire

Students should choose a numbered chit and will be given a topic and should answer accordingly. Example: You get number 3 in the chit and the topic is MNCs you have to

name 3MNCs.

ROUND 3: Just a minute (JAM) round

In this round, the participant has to speak for a minute and the topic will be assigned to him/her on the spot, but the topic will be generalized and fun.

RETROSPECTIVE

Retrospective is a poster presentation event for B.tech 1st, 2nd and 3rd year students, conducted by Department of Computer Science and Engineering. This event consists of two rounds. In this event at most a team of two are allowed to participate.

Round 1: In this round, posters must be sent by the participants prior to the event along with the description of the poster. The posters sent by the participants will be shortlisted for presentation (based on design and description).

Round 2: The selected participants should briefly explain about their poster regarding the details like what made them choose the topic, how did they get the idea, software they used, etc.

This event is conducted to bring out the creative and designing skills of the participants. The event is conducted on 19th November,2022 from 2:30pm-3:30pm in Block 5 room number 2022

EVENT PHOTOGRAPHS

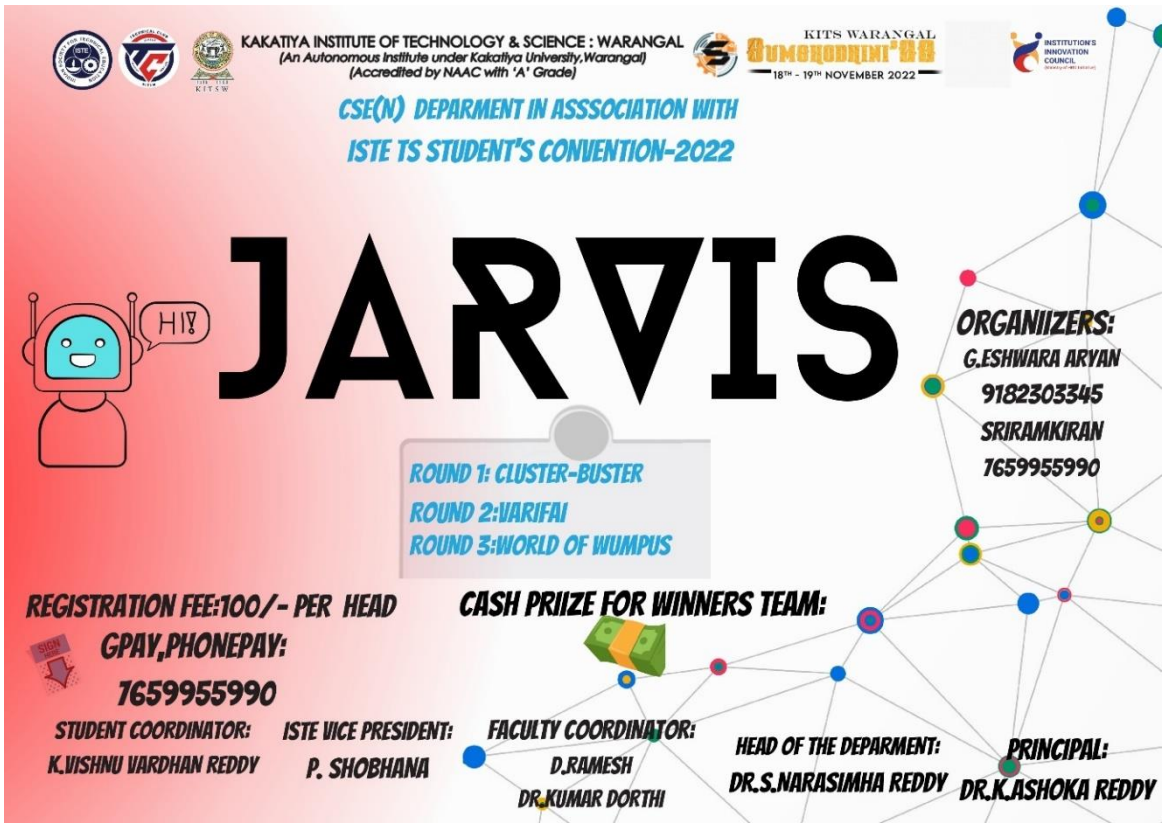
JARVIS



Date: 19th November 2022
Timings: 09:30 AM to 01:00 PM
Venue: Block VII,

DESCRIPTION:

This event consists of three rounds.

ROUND 1: CLUSTER-BUSTER

This round mainly is about the machine learning topic which is clustering. We will briefly explain to new students or participants the use of clustering in a live animated presentation by us. In this round, we will play a game of clustering in which students have to participate in a way such that in a box couple of color balls/items of different colors are given to them. We check the time of the students and how fast can they cluster those items and decide the conclusion of the round. There is no elimination in this round.

In this round, we will check which participant is stronger and more active and further decide the winner.

ROUND 2: varifAI

This round is about Artificial intelligence. We will use the same software as Dall-E, in which if the text is given by your imagination, then it presents you in an image form. So, we will explain it in a live animated presentation. In this round we will give an image to the students in such sorts as two words or images are mixed with each other, then students have to guess those two words or images which we have given without their acknowledgment of what has been given to them on the projector. Then we will allow the points to students for those who guessed correctly and minus for not guessing and we will eliminate those groups who have fewer points compared to the other groups.

ROUND 3: WORLD OF WUMPUS

This is the final round of this event. Which is the most famous game in the artificial intelligence world which is 'WUMPUS-WORLD'. On the projector one by one we will let groups play this game. We will play this round all according to the rules of the original game rules. We will check the student's scoring points in this game and we will add up all the possibilities of these game points. Then we will see which group is taking the prize home by fair point classification from all the rounds. And decide the winner of these three rounds of gaming winners.

WEB EXPO

Date: 19th November 2022
Timings: 02:00 PM to 05:00 PM
Venue: Block II, New Seminar Hall

DESCRIPTION:

ROUND 1: WEB WANDERER

In this round, participants need to design a web page with basic web programming skills. By using the basics of web programming like HTML and CSS participants need to design a web page according to the given requirements. They need to create an interface that should contain a couple of buttons. These buttons need to individually represent a specific application. Any action on these buttons should direct to the homepage of that specific application. In this round, marks will be allotted according to the design and the presentation of the web page.

ROUND 2: WEB DEVELOPER

In this round participant need to pick a slip from the given options. Each slip contains a place or a daily life application where we use the web. Participants need to design a web page based on the requirements of that particular place. They need to ensure that the web page created is effective and efficient. Based on the design, efficiency of the web page, and neatness the marks are allotted in this round.

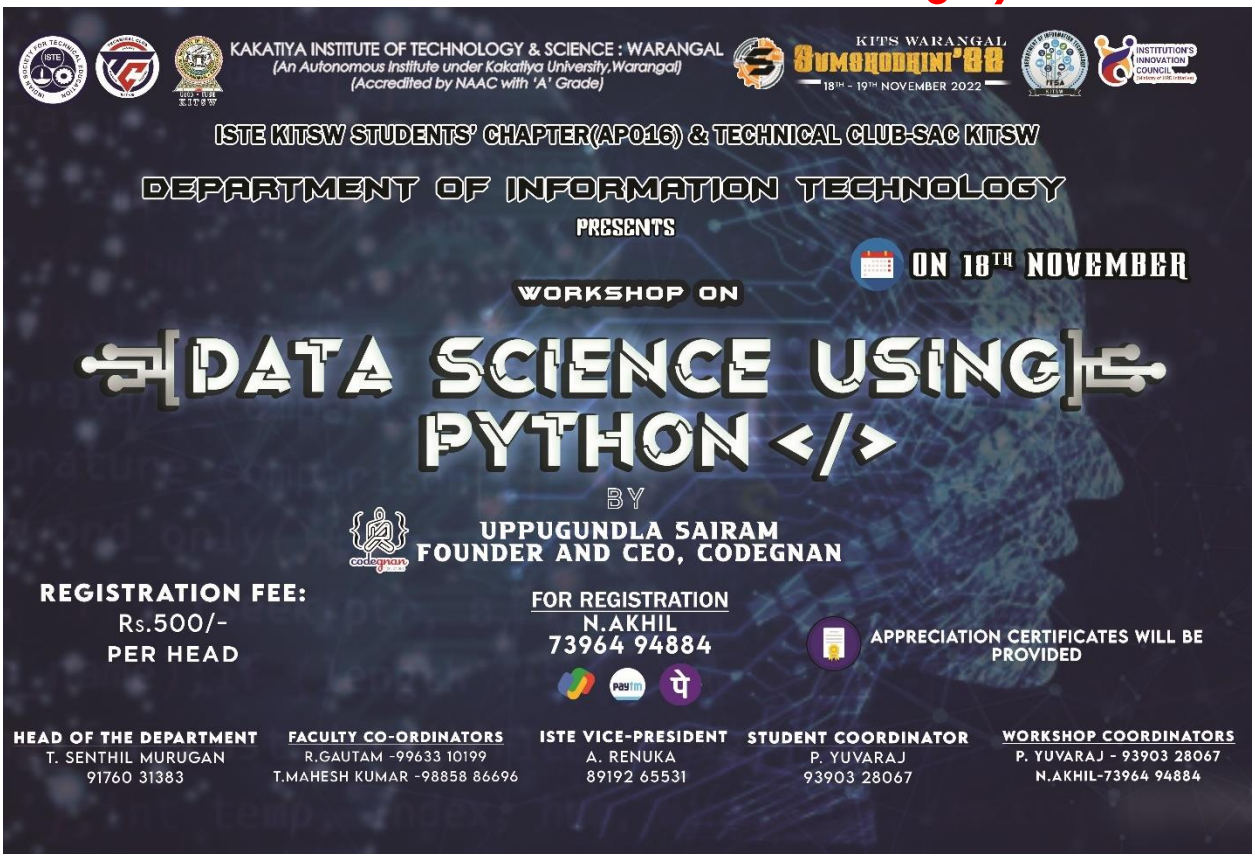
DEPARTMENT OF INFORMATION TECHNOLOGY

WORKSHOP ON *"Data Science Using Python"*



This Data Science Workshop focused on building up your practical skills so that one can understand how to develop simple machine learning models in Python and build an advanced model for detecting potential bank frauds with effective modern data science. Real time examples were taught that lead to real results.
Uppugundla Sairam, Founder and CEO of Codegnan was invited for a talk and he explained basic Python and Machine Learning Algorithms.
Fast-paced and direct, this Data Science Workshop was the ideal companion for data science beginners..

TECH BEE

Imagine having a browser installed in your devices but no websites. Feels weird right. You got it guys this event is about website designing. In this event we will be knowing how to design a website using HTML (basic coding).

There are 3 rounds in this event,

Round 1: Website Designing

We the event organizers explained in detail about HTML coding and it 's importance in building a website. We made them to write their code and build a website.

After running this code successfully the participants got their output as (This output is taken from a participant who successfully executed the code)

So, This is the end of technical round.

Round 2 : DO or DIE

To add fun to the event and some common-sense test we move to the round "Do or Die" which is we gave some life-or- death situational videos from internet with four options the participant should choose the correct option.
So, This is a life or death situation where the person's flat is on fire, he has no where to go, he climbed onto the window, Now he have 3 options to be chosen. So, the participant should choose the option wisely. This is all about round 2 we gave many scenarios to the participants. Now,
Round 3 : Game Mania
This is a fun round, we divided participants on their wish play different games, Battlegrounds Mobile India (BGMI) and Skribbl,
BGMI, This game is played by the participants with their team mates (in-game friends) as squads, trios, or duos. This game is all about surviving among 50 players in a radius of 4x4 km map in the game. The last squad to be surviving in the game is the winner of the match
The game of artists, here the players are in given with one chance in every round to choose a word secretly among the three words displayed, and the player should give the pictorial representation on the screen, and the other players
should guess the word and type it if it is correct, they will be awarded points. At last, the guy with higher points is declared the winner.
Example, This is the end of our event. All the participants had fun and knowledge about website using HTML.We did give points for every participant in each round based on their performance.

TECHQUEST

Hello everyone, Fests are all about having fun with your friends ,making memories and connecting with people imagine doing it while sharing knowledge in a proactive way. Feels exciting, right? Our event contains all the above and more. Sumshodhini 2022 presents 'Techquest' by Department of Information Technology Here is a detailed description about our event:

Round 1 : Pictionary

In this round each team will pick a chit and a participant from each team should explain the word in the chit without speaking , by drawing pictures. The team which will tell more number of words in the given time will get more points.

Round 2 : Extempore

Each team will be given a topic on which they have to speak but they will be given only 10 minutes of preparation time . They will be judged on different criteria .

Round 3: Hogwarts' legacy

Teams which are finalised will compete against each other to win 2 final prizes . Participants should find clues to acquire points and the top 2 teams with highest points will be declared as winners. Most important detail of this round is that it is a Harry Potter themed clue search . Sounds interesting, doesn't it?
