Prospective authors are invited to submit manuscripts reporting original, unpublished research and recent developments in the topics related to the conference. Submissions must include title, abstract, author affiliation with the email address and keywords as per template, which is available in the website. The paper should not contain page numbers or any special headers or footers. Regular papers should present novel perspectives within the general scope of the conference. Short papers (Work-in-Progress) are an opportunity to present preliminary or interim results. The paper length should be in 6-8 pages. Literature reviews/survey papers will only be considered if they present a new perspective or benefit the field. To be published, such papers must go beyond a review of the literature to define the field in a new way or highlight exciting new technologies or areas of research. All submitted papers will be subjected to a “similarity test” by Turnitin Software. Papers achieving a minimal similarity index i.e. less than 15% will be examined, and those are deemed unacceptable will be rejected/withdrawn without a formal review.

All the accepted and registered papers will be published in the conference proceedings with ISBN number.

Selected papers may be published in SCOPUS/SCI indexed journal. (under process)
