**DEPARTMENT OF CIVIL ENGINEERING**

The primary purpose of overseas education or study abroad is to get a further knowledge on culture & places and gaining intercultural skills and on the other hand, making our resume look better with more employable chances and this brings us into international exposure. On Monday, we had an fascinating study abroad session by IMFS, in the CEA hour by student body and the faculty. In the event Mrs. DEEPTHI has given an excellent demonstration on the benefits of international education and a brief review on ENGLISH PROFICIENCY TEST such as IELTS, TOFFEL, DUOLINGO AND PTE. Apart from this, the instructor explained about GRE AND GMAT preparation tips and made the whole session interactively. In addition to this, the Instructor gave a crisp and clear guidance about the IELTS IDP preparation. Eventually, the students gained on point information on the abroad education.

Placements are basically a job that someone does in an organization to get some work experience and to sharpen their skills.

India, the best place to crack jobs is on-campus placements. Where institutes/universities train students for the placements with authentic trainers.

This is a **Job awareness** event conducted in CEA hour by the student body and the faculty, to bring together all the peer students from the Department.

In the event **Sri G. Rakesh Yadav**, Assistant Professor, EEE Department gave an excellent demonstration on the topic of placements with suitable examples and explained the scenario of the students in the time of placements. There are plethora of companies who are hits/knocking the gates of **KITS Warangal** for placements even in (Core and IT sectors). So, the probability of getting job in on-campus and the probability of students getting placed by more than one job has been discuss in the session.

Apart from that, sir gave a brief study plan and suggested a well authorized book “**RS Agarwal ( Continuity in key )**” for students which would probably useful in the time of placements.

Debate is an argument/discussion of a topic between a group of individuals to support or oppose the argument and put it forward then concluded with a vote. It is a competitive event conducted in CEA hour by the student body and the faculty, to bring together all the peer students from the Department. The debate was about **'Conclusion For How India Fared During Covid-19 In Comparison To Other Countries'**. The number of participants show cased enthusiasm towards the event and the active participation of the Affirmatives (Supporter of the argument) and the Negatives (Against to the argument) made the event more emanate. The debate was satisfactory, both the supporters and the opposers stated their opinions, argued and concluded the vote of the debate. Most of them voted positively i. e, right decisions are taken on right time. Whereas few participants stated the drawbacks of the Covid-19 Lock down besides success in the Battle of Life.

DEPARTMENT OF CIVIL ENGINEERING

The session was started at 5:30 p.m. The session was all about developing entrepreneurship skills. All attendees were very much excited as the topic depicts the situation in the present scenario. The speaker of the session was Sri K Sathwik, BE (civil), MTech (structures, IIT Bombay), MIE, C Founder, Co-founder, Resilient Engineering Consultancy Private Limited. The speaker started the session explaining what exactly the entrepreneurship skills are. Then he explained about difficulties faced in this business sector. He then continued the session with few suggestions to build a team and to overcome the conflicts. Later participants were given few techniques to implement an idea in a new way to achieve the success. Then he explained about personal branding which is one of the sustainable business measures these days. Ultimately the students of the civil department were boosted by the speaker's words about opportunities for civil engineering students. Then the session was followed by a Q&A clarification and the session was concluded at 7:00 p.m.
