The session was started at 11:40 AM in the Civil Seminar Hall. All the CED faculty were present and about 120 students participated in the session. Technical quiz was conducted by final year students coordinating second- and third-year students. In this event the participants were divided into four groups to compete among themselves by answering the quiz questions which focused on technical civil engineering question. Students showcased their brilliance by answering the questions. Faculty and student body of CEA had evaluated each team's responses and announced the winner team who answered to the maximum questions during the session. The primary motto this session- "to demonstrate the importance of basic technical knowledge of civil engineering" was conveyed to the participants. And the participants were very enthusiastic and made it successful with their involvement.

In this session the Senior Manager of GIS Yogesh Karyakarte addressed the meeting. GIS (Geographic Information System) is one of the largest Technology Solutions in India and started in the year 1994. It is also a bronze partner to Esri. GIS creates, analyses, manages maps and all types of data. It gives us 2D, 3D, 4D maps where supports data, visualization, advanced analysis. The main Agenda of GIS is Remote sensing & GIS, Esri products, Applications for Civil Engineering. GIS is used to solve complex problems related to surveying .and gives the Scientific Information, Resource Management and development planning. This GIS software is developed in AutoCAD, Civil 3D, Revit software. It helps students in placements and project management.

As a quote says “cross-cultural learning and studying abroad can be transformative” .So by knowing the importance of overseas education Civil engineering association decided to conduct a session on spreading awareness about overseas education by collaborating with IMFS. The session was held in the Civil Seminar Hall. The entire CED faculty was present, and approximately 120 students took part in the session. During this session, an IMFS representative addressed the meeting. The main goal of this institute is to take engineering to new heights. IMFS is the India's leading overseas education consultancy. It provides world-class consultancy regarding abroad education They answered to all of the participants questions and showed them the way to study abroad.
