P. Give suggestions for improvement (to consider during syllabus revision)

In my department of ECE, apart from core subjects of E.C.E some programming languages like c, c++, D S, O.S were taught, that is quite helpful for us to crack interviews. In addition to these subjects if python, java are added, it will be very helpful to our coming juniors to crack interviews very easily.

P. Give suggestions for improvement (to consider during syllabus revision)

→ I think course should (include) ^{concentrate on} real time applications.

→ Each topic should include its application in real time.

→ Though basic are very important, as technology has been improved a lot, course should include ~~no~~ recent innovations than concentrating more on legacy systems.
