J. Give suggestions for improvement *(to consider during syllabus revision)*

The overall content of the subject is good but it can be driven in a more practical way such as giving projects during the semister itself other than major projects or mini projects so that it meets the industry standards much closer.

P. Give suggestions for improvement *(to consider during syllabus revision)*

Doing real time projects based on the syllabus covered in respective topics will be most benificiary. Along with doing practicals in lab, rather than giving theory (writing) assignments, tell students to do some project based on what they studied in the course.
