## Inaugural

We began the activities of ECE Association for the academic year 2020-2021 with an inauguration ceremony on 2<sup>nd</sup> Sept, 2020 at 3.30 pm through Google meet. Dr. B. Rama Devi, Head of the Department released the official executive body of ECEA 2020-21 and congratulated them. Students from 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> year ECE attended the meeting.

### Inaugural Invitation

## The ECEA Logo

The official ECE Association Logo is redesigned in this year. The new logo signifies the integrity of ECE students in growing and learning together professionally and socially. The logo is designed by J. Laxmi Lahari of III/IV ECE.

# Guest lecture on An Introduction to Planetary Radar Astronomy

An online guest lecture on "An introduction to Planetary Radar Astronomy" is held on 12<sup>th</sup> Sept, 2020 at 3.00 pm through Microsoft teams. The guest speaker Dr. Sriram Saran Bhiravarasu, Staff scientist at Space Application Center, ISRO, Ahmedabad addressed the students. The objective of the program was to inspire the students on the underlying technical aspects of radar observations.

## Event Poster

The poster is for an online guest lecture titled "AN INTRODUCTION TO PLANETARY RADAR ASTRONOMY". It is organized by the ECE Association 2020-21 at Kakatiya Institute of Technology and Science, Warangal, Department of Electronics and Communication Engineering. The lecture is held on 12<sup>th</sup> September 2020 at 3:00 PM. The guest speaker is Dr. Sriram Saran Bhiravarasu, Staff Scientist at Space Applications Centre, ISRO, Ahmedabad, Gujarat, India. Faculty coordinators include Dr. K. Sowjanya, Smt. E. Susmitha, Sri Ch. Pavan Kumar, and Sri V. Shobhan Reddy. The poster also mentions Dr. B. Rama Devi as HoD, ECE and P. RJU SHARMA.

## Guest lecture being held in Microsoft teams

The screenshot shows a Microsoft Teams meeting in progress. The main window displays a presentation slide titled "Current Planetary Radar systems". The slide text states: "The two dominant radars (in terms of sensitivity) currently used for radar studies of solar-system bodies are the 305-m Arecibo telescope and 70-m NASA DSN Goldstone antenna. Sometimes, a bistatic configuration will be implemented using these radars for transmitting and the National Radio Astronomy Observatory's Green Bank telescope for receiving." The slide includes three images: Arecibo Radar, Goldstone DSS-14, and Green Bank Telescope. A note next to the Green Bank Telescope image says "World's largest fully steerable radio telescope, with an aperture diameter of 100m NO Tx, only Rx". The meeting interface shows a "Request control" button, a "Leave" button, and a "Participants" list on the right. The participants list includes "Guest ECE" as the Organizer and 304 Attendees, with names like Pavan Kumar Ch, B17EC005, B17EC009, B17EC013, B17EC025, B17EC027, B17EC032, B17EC034, B17EC035, and B17EC042. The bottom of the screen shows a Windows taskbar with the time 15:17.

# Lecture Series on Understanding Digital Communication Through SCILAB

The lecture was conducted on 30<sup>th</sup> Nov, 2020 at 4 pm by ECEA in Association with ECE Technical Club on the topic “Understanding Digital Communication Through SCILAB” with Lecture 1: Basics of Linear Algebra using SCILAB. The session speaker was Dr. V. Vineel Kumar Asst. Professor, Dept of ECE. In the session students were given the overview of the Digital Communication and SCILAB software. The session later continued with solving of Linear Algebra problems using the SCILAB software.

# A one-day work shop on NI Multisim for Enhanced Learning and Teaching Engineering Electronics Design and Simulation

This workshop was conducted on 1<sup>st</sup> May, 2021 by Department of ECE in association with Techfluent Solutions Pvt. Ltd is going to conduct a work shop on "Multisim for enhanced learning and teaching engineering electronics design and simulation". The workshop ensures that the attendees or participants learn the following after completing the session:

- Get a thorough knowledge about NI Multisim and its prime Features.
- Will be able to design a schematic, run the simulation and perform various analysis.
- Will be able to understand breadboard circuit design and design breadboard prototypes.
- Brief knowledge on Interfacing NI Multisim with NI LabVIEW for further analysis and control design.

# The Placements Talks

An online interaction session “The Placement Talks” is conducted on 19<sup>th</sup> June, 2021 at 6.00 pm through Microsoft teams. This session provided a platform where the 4<sup>th</sup> year students placed in several companies to share their placements experiences and suggestions to their juniors. Juniors had an opportunity to clarify their queries regarding placements directly from their seniors. Faculty coordinators Dr. V. Raju, Asst.Prof and Syed Zaheeruddin, Asst.Prof started the session throwing light on students on building right career and being confident in placement drives. Then 4<sup>th</sup> year students N. Abhinay Chandra, K. Sri Teja, R. Manusree, L. Gayathri, A. Thrinath Reddy, V. Deekshitha and Md Shaheedh Asar shared their placements experience. The session ended by clearing the queries raised by 2<sup>nd</sup> and 3<sup>rd</sup> students. Around 170 students from ECE and ECI attended this session.
