Best Practices

I. Best Practices of the department Short Term and Long-Term Goals:

Best Practices of the Department

1. Active involvement of Stakeholders in department academic activities.
2. Skill and Employability Enhancement for Students by conducting program skill development laboratory.

II. SWOC Analysis

SWOC Analysis of the Department

Strengths:

- Dedicated faculty with strong qualifications and retention, supported by well-equipped infrastructure and labs.
- Continuous monitoring and counselling of students for the overall improvement of the student.
- Placement Training, Personality Development programme, professional development activities and value-added programmes are conducted for students' career development.

Weakness:

- Student publications has to be improved.
- Number of PhD holders has to be improved in the department
- No Research laboratory exist in the department
- No research grants from reputed organizations.
- R&D and consultancy need to be enhanced.

Opportunities:

- Seminars and Project works can be converted into publications.
- Faculty are submitting the proposal to the research organizations for funding
- Department can try to generate funds from consultancy work and provide hands-on experience to the students.

Challenges:

- Updating of curriculum according to the industrial expectations.
- To sign MoUs with companies and R&D to have collaborative domain & specific training programs.

III. Short term and Long-Term Goals of the department

Short Term Goals of the Department	
Short term goal 1: To improve students' placements	Action Plan: a. During association hour, we are planning to conduct motivation sessions with already placed students in different companies. b. To invite eminent speakers from industries for delivering guest lectures on latest technologies.
Short term goal 2: To motivate students to establish startups and be successful entrepreneurs.	Action Plan: 1. Integrating Innovation Incubation Research and Entrepreneurship (I ² RE) into course teaching by giving special assignments on Course Patents and Course Research Paper

Long Term Goal(s) of the Department
Long term goal: Encourage the faculty <ul style="list-style-type: none"> • To complete Ph.D. Programme. • To publish research papers and claiming patents. • To acquire research grants. Action Plan: 1. Motivating faculty to apply for research grants every year. 2. Regular monitoring of research progress of individual faculty. 3. Planning to organize research talks by experts to improve effective research capabilities.

IV. Portray department distinctness

Distinctiveness of the Department
<ul style="list-style-type: none"> • Strong Leadership and Talent: The department might be characterized by strong leadership and well qualified, experienced and dedicated faculty who are committed to excellence and continuous improvement. • Specialized Focus: The IT Department have a specialized focus on a particular area of information technology, such as cybersecurity, data analytics and artificial intelligence and department organizes guest lecturers to students periodically. • Cutting-edge Technologies: The department could prioritize the adoption and implementation of cutting-edge technologies, staying ahead of industry trends and ensuring that department remains competitive in its technological capabilities and department organizes FDPs to the faculty on cutting-edge technologies.

Vision, Mission & SWOC**Vision of the Department**

To become a center of excellence in the information technology discipline with effective teaching and strong research environment that makes our students globally competitive with strong ethical values and leadership abilities

Mission of the Department

- M1: To impart technical knowledge to the students to turn out proficient and well groomed engineers
- M2: Motivate students to improve skills by attending training programs and internships that leads to develop innovative projects in emerging technologies
- M3: To train our students for higher education, leadership in profession and adopt quality research
