For Registration:

<https://forms.gle/umUwDH9nFUbZEGw87>

### Objective of the Training

The primary objective of this training program is to bridge the gap between academic knowledge and industry expectations by equipping students with hands-on experience in Full Stack Web Development. Through this course, students will:

- Understand the complete workflow of modern web development
- Gain expertise in building responsive user interfaces using React JS
- Develop and secure backend services using Node JS and Express
- Perform database operations with MySQL
- Learn to integrate frontend and backend systems effectively
- Deploy full stack applications to the cloud
- Build a portfolio-worthy project that demonstrates industry-ready skills
