

STUDENT - CIRCULAR - TO SCORE WELL IN EXAMS

Dear Students!

You can easily score pass marks in MSE and ESE. Please focus on practice

Sub: Practice makes perfect - Check your CourseWeb for Solutions

- Practice the Solutions of Tutorial Problems, MSE and ESE questions
- Your faculty informed to post solutions on CourseWeb to help you score better
- If not posted, Ask your course faculty to post the detailed Solutions of all Tutorial sheets, MSE Question papers, ESE Question papers - Reg.

\*\*\*

As part of student-centric TLP, we have created CourseWeb, which is a digital learning platform with all learning resources. To help you score well in exams, all faculty members already have been informed to upload the following on CourseWeb

- (i) Solutions of all tutorial sheets
- (ii) Solutions of previous MSE question papers (minimum 3 MSE-1, 3 MSE-2 Question papers)
- (iii) Solutions of previous ESE question papers (minimum 3 ESE Question papers)

In this matter, the students are advised check the CourseWeb for the solutions of all Tutorial Sheets, min 3 MSEs and min 3 ESEs. If you don't find the solutions on CourseWeb, please ask your course faculty to upload the solutions for your preparation.

The following are some of the observations made from analysis of MSEs, ESEs:

- (i) Good % of the questions are drawn directly from tutorial sheets. Practice the solutions of the all-tutorial sheets. Some problems are given without change in numerical and some are with change in numerical.
- (ii) Good % of the questions are also picked from previous MSE & ESE question papers. Practice the solutions of previous MSE & ESE questions.
- (iii) *The material / questions discussed in the regular classes also appeared in exam. Practice the classnotes material to score very well in exam.*

From the above observations, it is very clear that scoring minimum 11 marks in MSE and 21 marks in ESE is no more a difficult task.

Dear students, ALL YOU NEED TO DO is

- practice the solutions of all Tutorial sheets
- practice the solutions of previous MSE questions
- practice the solutions of previous ESE questions
- *to score very well, practice the material of classnotes*

All the best!
