Classroom learning builds a strong foundation in engineering concepts. To help students connect this knowledge with real-world applications, the **Expert Talk Series (ETS)** has been introduced for **all B.Tech students** as part of the **URR24 curriculum**.

ETS provides opportunities for students to interact with professionals from various industries. These sessions' help students understand how engineering is applied in real-life situations, what skills are needed in the workplace, and how to prepare for future careers. The objectives of the ETS are to provide students with exposure to real-world industry practices, help bridge the gap between academic learning and professional skills, and enhance their employability-related competencies.

ETS Mock Test -II Schedule

Date: 11.09.2025 (Thursday) Time: 4.00 pm Title: ETS Mock Test- II
